**War Department Learns of Preparation Made to Destroy the American Army Should It Undertake to Advance From Vera Cruz to Mexico City.**

**GENERAL FUNSTON AND ADMIRAL BADGER ANXIOUS FOR ORDERS TO PUNISH ENEMIES**

**O'Shaughnessy's Baggage Stolen While Leaving Country on a Special Train Provided By Huerta—Americans Make Determined Effort to Release Silliman.**

By Associated Press.

Washington, D. C., May 5.—Information came from Vera Cruz to the War Department today that the Mexican Federals have mined the railway tracks from Vera Cruz to Mexico City in preparation for their utter destruction in the event that the Americans attempt to march on the capital. No confirmation had been received of reports that the San Francisco bridge on the Inter Oceanic Railway had been damaged.

The mines are reported located one half a mile apart and Mexican soldiers have been detailed to touch off the fuses should hostilities eventuate. These preparations and the throwing up of defenses, which are daily making the position of the Mexican Federals stronger, is continuing a source of worry to General Funston, and it is understood that he would welcome an order to start to march on the capital at once.

Real Admiral Mayo, at Tampico, has informed the Navy Department that he would have no trouble in taking Tampico with his present force and it is hinted that he has repeatedly advised that such an action be taken.

Rear Admiral Mayo now has under his command, in addition to his flagship, the Des Moines, two cruisers and a torpedo boat flotilla of nine.

## ROBBED O'SHAUGHNESSY OF BAGGAGE

By Associated Press.

New Orleans, La., May 5.—The Mexicans did not even expect Nelson O'Shaughnessy, former Charge at Mexico City, in preying upon American property, after the fall of Vera Cruz. Practically all of the baggage of Mr. and Mrs. O'Shaughnessy was stolen from the special train Huerta provided for the Charge and his party to transport them to Vera Cruz after he had been handed his passports.

Mr. and Mrs. O'Shaughnessy arrived here today on the Yankton and will leave tonight for Washington.

## AMERICAN CONSUL HELD BY MAAS

By Associated Press.

Washington, D. C., May 5.—Alarmed by unofficial reports that Acting American Consul John R. Silliman, at San Luis Potosi, Mexico, has been a prisoner of General Maas, Mexican Federal commander, for two weeks, the State Department today sent an urgent telegram of inquiry concerning him to the Brazilian minister in Mexico City, and to Consul Hanna at Monterey. His regular post was at Saltillo, but he was transferred to San Luis Potosi in the present emergency.

# HUERTA FLEES FATAL STREET ON THURSDAY? CAR COLLISION

By Associated Press.

Vera Cruz, May 5.—Refugees arriving here from Mexico City bring conflicting rumors concerning the purposes of Provisional President Huerta. Some say that, realizing the hopelessness of the situation, he has agreed to retire from the presidency, fixing Thursday of this week as the day of his retirement.

Other reports declare that Huerta, instead of yielding, has determined to play out the game. He is fully aware that mediation will mean time, even if it does not lead to an amicable adjustment of the difficulties.

## READING TREATY

By Associated Press.

Bogota, Columbia, May 5.—The treaty between Columbia and the U. S., settling a long-standing dispute over Panama, passed its first reading in the Senate today.

## BISHOP CRUCIFIED BY MEXICAN REBELS.

San Francisco, May 5.—Among the tales of atrocities told by the refugees from the west coast of Mexico who arrived here on the steamer City of Sydney is that of the crucifixion of the Catholic bishop of Chalapala. According to the account a detachment of the rebel General Zapata's soldiers called on the bishop to surrender the funds of his church. He refused, whereupon the soldiers are said to have nailed him to a cross and left him there to die.

# DURVEA KILLED BY SON

By Associated Press.

New York, May 5.—In a cell in the Brooklyn police station Chester Durvea, who early today fired seven bullets into the body of his father, Hiram Durvea, millionaire starch manufacturer and veteran of the Civil War, killing him instantly, talked incoherently of the events leading up to the shooting, and gave evidence of being stark mad.

While talking, he dug his nails into the palms of his hands until they bled. He said he shot his father when he received a spiritualistic message from George Washington. In a saner and calmer tone he said, "I was the best friend my father had and he was the best friend I had. I loved him dearly. If he was here now he could explain all. I don't know why I shot him. I made up my mind if I killed him that I would kill myself, and I am sorry that I did not carry out my original intentions."

# ENTERED MINE AT FATAL HOUR

By Associated Press.

Eccles, W. Va., May 5.—The body of Freeman Linville, an insurance agent of Charleston, W. Va., who went down into the shaft of Mine No. 5 of the New River Coal Company before the explosion that claimed 172 lives last Tuesday, was recovered early today.

Identification was made by a masonic ring which he wore. Other bodies have been brought to the top during the night and it is thought that the mine will be entirely cleared by tonight.

# TAMPICO FEDS ARE REINFORCED

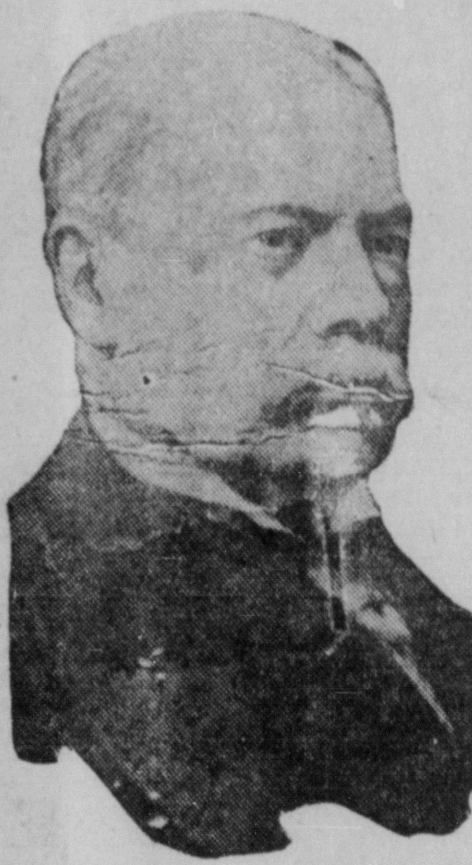

By Associated Press.

Washington, D. C., May 5.—Firing continues daily at Tampico between the Constitutionalists and Federals, according to a report transmitted from Rear Admiral Mayo by Rear Admiral Badger.

Heavy guns were heard yesterday morning. The steamer Camaguey, which arrived at Vera Cruz from Tampico, reports that the Federal forces were reinforced by 1500 men last week.

# JUDGE INJURED WHILE ON BENCH

By Associated Press.

Zanesville, Ohio, May 5.—Common Pleas Judge A. A. Frazier, of Muskingum county, was seriously and perhaps fatally injured at the court house this morning, when struck by a large piece of plaster cornice.

The striking weight of the town clock in the court house, weighing 1200 pounds, broke loose and fell 20 feet. It was stopped by a heavy iron beam, and great chunks of plaster fell. One of these struck Judge Frazier on the head. He is still unconscious and may die.

# LIPPITT HOT ON WILSON'S TRAIL

By Associated Press.

Washington, May 5.—A resolution calling upon President Wilson for information as to whether there is any basis for the statement published today that he may aid General Villa to become the next ruler of Mexico, was introduced in the Senate today by Senator Lippitt, of Rhode Island.

The resolution, under the objection of Senator Stone, chairman of the Foreign Relations Committee, went over until tomorrow.

## TIPPLE BURNED

By Associated Press.

Charleston, W. Va., May 5.—The tippie of the Hugeston mine of the Hugeston Coal and Coke Company, was burned early today, with a loss of \$500,000. The miners there are on a strike.

# WHOLE SITUATION IN THE MEDIATION

By Associated Press.

Washington, D. C., May 5.—The text of the Mexican mediators' telegram to General Carranza, eliminating him from the mediation proceedings, which became known today, disclosed for the first time that the mediators held that "all the differences which constitute the present situation in Mexico bear either directly or indirectly on the solution of the pending conference between Mexico and United States."

The mediators declare in answer that all these differences "should be made the subject of consideration in negotiations, for whose successful conduct we have decided it indispensable to suspend hostilities." Should Carranza not deem it so the mediators state they would be compelled to withdraw as inopportune the appointment of Constitutionalist representatives. This message is the first authoritative expression from them that they consider the whole Mexican difficulty, including the Huerta and Carranza issue, as having a bearing on the issue between the United States and Huerta.

For the first time since the occupation of Vera Cruz the Cabinet session lasted less than one hour. After the conference members said that there was practically no discussion of the Mexican situation. The whole time was taken up with regular parliamentary routine.

# English Would Ask America to Back Up

London, May 5.—Foreign Secretary Gray invited Sir John David Reese, Unionist in the House of Commons, to ask the American government "to abandon its position that the removal of Huerta is of greater moment than the restoration of peace and the protection of life and industry in Mexico." Sir John David Reese declined, declaring that in view of the fact that mediation had been undertaken by Argentina, Brazil and Chile, there could now be no useful purpose served for the British government to make separate proposals on its own account to either Washington or Mexico City.

## AMERICANS HELD BY FEDERALS

Washington, D. C., May 5.—Rear Admiral Badger has reported to the Navy department the receipt of word from the torpedo boat Dakin, at Tuxpan, that the authorities there had ordered custom officers not to enter or clear any vessels from or to American ports. It is reported that similar orders have been given in all parts of the state of Vera Cruz.

The Dakin also reports that 13 Americans have been detained against their will at Metlaloyuca, in the state of Puebla, 60 miles from Tuxpan. This information was given to the British Consul at Tuxpan by American refugees, who said that the Mexican authorities gave as their reason for holding the Americans a desire to assure their safety. The British Consul wired the governor of Puebla requesting their release.

# VASQUEZ IS SHOT

By Associated Press.

Charleston, W. Va., May 5.—A little girl answering the description of Catherine Winters, who disappeared from her home in Newcastle, Ind., has been located at the home of C. I. Sigman, at Kingston, near here.

A telegram has been sent to Dr. Winters, father of the girl, asking him to go to Kingston.

# PANAMA EXPLOSION KILLS EIGHT PERSONS

By Associated Press.

Panama, May 5.—An explosion this morning at the government of Panama dynamite magazine, resulted in the death of eight persons. Nineteen were seriously injured and considerable property was destroyed. The explosion was caused by a fresh fire, which made its way into the interior of the building.

Six of the dead and most of the wounded are firemen who were called to the scene to fight the flames. A man and a woman who were watching the fire at a distance, were torn to pieces. The concussion shook Panama. In addition to obliterating the magazine the explosion caused immense property damage in the neighborhood.

# YANKEE CONSUL HELD PRISONER

Threatened Every Night With Execution.

CAPTIVE OF GENERAL MAAS

Newspaper Correspondents Reach Vera Cruz and Tell Story of Predicament of Acting Consul Silliman at San Luis Potosi—Rebels to Fire Tampico If Admiral Mayo Makes Hostile Move.

Vera Cruz, May 5.—News reached here that John R. Silliman, acting American consul at San Luis Potosi, has been a prisoner in the hands of General Joaquin Maas, the federal commander, for 11 days, and has been threatened every night with execution.

The information about Silliman's predicament was brought here by two American newspaper correspondents, who had come to Mexico recently on the invitation of Provisional President Huerta. They went to the north to watch the field operations of the

federal army, and after they had witnessed the defeat of the federal troops at San Pedro were taken back to San Luis Potosi and imprisoned, but were afterward released.

Word was received here that Dr. Edward Ryan, an American who had been threatened with death at Zacatecas, has arrived at Mexico City and will be turned over to the Brazilian minister.

A message from Mexico also announces that Pedro Lascruain, a wealthy real estate dealer, who was minister of foreign affairs in the cabinet of the late President Madero, has disappeared from the capital.

The Constitutionalists at Tampico have notified Rear Admiral Mayo, commander of the American warships stationed there, that if any of his vessels attempt to enter the Panuco river, the oil reservoirs above the city will be emptied and the oil ignited, which will mean certain destruction to the town. This situation was reported by the commander of the United States torpedo boat destroyer Jenkins, which arrived at Vera Cruz from Tampico.

Both the federals and the rebels are reported to have planted mines in Tampico harbor. It is generally thought here that Admiral Mayo will await the capture of the city by the rebels through the slow process of starving out the federals.

the State Commission is determined to have the law enforced in spirit and letter, and having held that the circulation of petitions is a violation and means dismissal from service, there should be general obedience to its decision.—Civil Service Commission of Ohio.

## NEW ANIMALS FOR THE ZOO

Cincinnati, O., May 5.—Kangaroos, black buck antelopes, llamas, one twenty-six foot python and a whole zoo full of other animals are due to arrive at Baltimore today on the steamer Bosnia, according to a cable received at the Cincinnati Zoological Garden yesterday by General Manager Sol A. Stephan, American agent for Carl Hegenbeck, who shipped the animals from his park in Hamburg on April 21. They are all consigned to the Cincinnati and New York zoos, with the exception of the snake, which goes to the Robinson's Show. It takes the place of one which was shipped a month ago, but which died at sea.

Over \$200,000 worth of animals will come into the United States from the Hagenbeck Tier Park this year, according to Mr. Stephan. A large portion of these are going to motion-picture manufacturers to pose in feature films.

## QUEEN FEARS FOR HER LIFE UNIQUE INDUSTRY ALONG SALT LAKE

Sofia, May 5.—Queen Eleanor of Bulgaria is not going to the United States, for the present at least. An official statement issued says present conditions in America are unfavorable to the proposed visit.

## VICIOUS ATTACK MAY END IN DEATH

When George Chaney, aged 44, stockkeeper, Hillsboro, O., and Edward Ross, 4765 Spring Grove avenue refused to give four men a nickel early yesterday morning they were set upon by the gang and badly beaten.

Chaney suffered a fractured skull. He is not expected to live. Ross sustained bruises of the face and head.

The assault occurred at Station and Spring Grove avenues. Chaney and Ross were walking along when the four men stopped them. They threatened the men with violence unless they gave them money.

Chaney and Ross refused, and before they could protect themselves both had been dealt stunning blows on the head. Not satisfied with knocking their victims down, the four ruffians kicked them in the head.

Ross, who was the least injured, notified the police, and a patrol wagon was sent to the scene. The men had fled and no trace of them could be obtained. It is believed that they were hoboos, who got off a freight train in Cumminsville.

Henry Boehn, patrolman on Auto Patrol 8, fell off the machine while it was speeding to the City Hospital with Chaney and Ross and was seriously injured.

The accident occurred in front of Spring Grove Cemetery. Boehn suffered a fracture of several fingers, bruises about the head and body and a probable fracture of the kneecap. He lives at 32 Calhoun street.—Commercial Tribune.

## WIFEY KEPT LATE HOURS

H. Charles Dickey, who owns a 200 acre farm near Chillicothe and who lives at 310 West Seventh street, Cincinnati, was granted a decree Wednesday divorcing him from Pauline Dickey to whom he was married at Chillicothe May 29 of last year, says the Enquirer. Dickey told Judge Warner that his wife neglected his home, and had a habit of staying out two and three nights at a time and refusing to give him any explanation. A sum of alimony was agreed upon out of court and she did not contest.

The marriage license records of this county show that Dickey was married to Miss Pauline Ethlyn Aber of Bucks township, May 29, of last year by the Rev. William C. Stinson. Dickey gave his age at the time as 23, his occupation a farmer and residence, Paint township. The bride's age is given as 19.—Chillicothe News

The most unique salt industry in the world is now carried on along the borders of Great Salt Lake. The saline deposits of the lake are utilized commercially, and it is no uncommon sight to see plowmen breaking acres of the purest salt, while other workmen shovel the broken product into wheelbarrows and carry it to waiting cars for transportation to the refinery.

The early settlers of Salt Lake City and vicinity were accustomed to getting their salt along the edges of the lake. The little pools left along the edges of the lake in the spring soon dried in the hot summer sun, leaving deposits of the purest salt crystal. This was utilized by the settlers, but it was figured out that Great Salt Lake might be turned into a veritable salt factory.

In utilizing this great lake as a salt factory it was only necessary to improve somewhat upon the ideas of the pioneers. Instead of depending upon the pools that were left by nature, those who have developed the salt industry have made large, artificial ponds and settling basins. The usual course of procedure is to make one large "stock" or settling pond. This is surrounded by several smaller harvesting ponds, each about 800x1000 in area. About May 1, the stock pond is filled and the water is allowed to stand there until the impurities in the water settle to the bottom of the pond. It is not generally known that the waters of Great Salt Lake are heavily impregnated with iron as well as salt. This iron forms a large part of the impurities which settle to the bottom.

After the water in the stock pond has settled it is allowed to flow into the harvesting basins, which are only about six inches deep. The water in these large, shallow basins evaporates at the astounding rate of two inches a day during an ordinary Utah summer. The daily losses in the harvesting basins are made up from the stock pond. In this way the harvesting basins always have an accumulation of water, making salt under the action of the hot sun.

Among the impurities which are brought to light in the stock pond are large quantities of sodium sulphate. This impurity floats and is driven ashore by the wind. This is marketed for cattle, as it contains much salt. The remainder is very pure, and the salt which forms in the harvesting basin is sent directly to the refinery. Late in the summer, as harvesting time approaches, the sight of these harvesting basins is most unique. The basins stretch sometimes for a mile or more along the beach, glittering white in the sun.

September 1, is generally the beginning of the harvest. The last inch of brine in each harvesting basin is drained off as this contains some impurities which were not caught in the large stock basin. If the summer has been one of ordinary heat there will be a crust of at least six inches of salt in each basin. After the last inch of water has been drained off these great salt fields shine like snow. The salt is pure crystal and very hard. Men and teams are set to work with plows. As the white and glistening furrows are turned aside by the plowshares the salt is thrown into barrows by the shovel brigade, and carried to places which have been marked out as the sites of salt stacks. Here the salt is left in great piles, or rectangles, until it is needed.

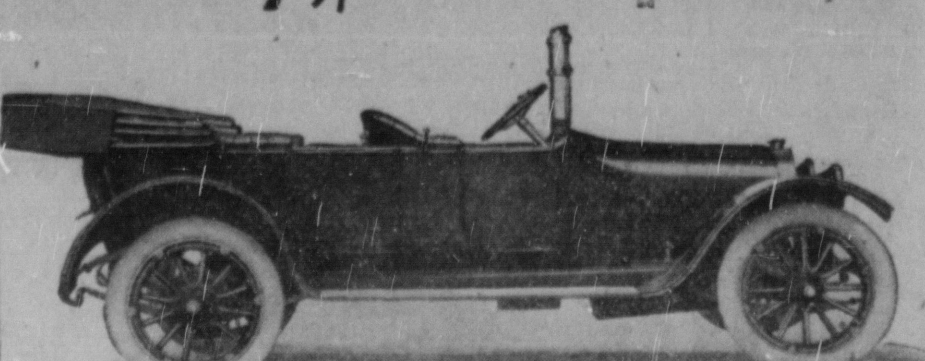

As the salt is needed, it is shoveled from the great salt piles into flat cars and taken to the refinery. Here it is dried in cylinders of heated iron, after which it is crushed between great rollers and elevated to the second floor, where it goes to what is known as the shaking sieve. This great sieve acts as a separator. The fine stuff is taken to the sacking room and the remainder is again put through the rolling process.

## STEERS PURCHASED FOR THAT NEW FARM

Columbus, May 5.—Ten carloads of fine young western steers were unloaded on the recently acquired rural prison site in Madison county during the past week. These animals were purchased in Chicago and will average about 900 pounds each. Within the next 30 days between 300 and 400 more will be purchased and shipped to London for the state farm.

With a total of more than 500 head of young steers, the state of Ohio is going into the cattle raising business. In the tract of land purchased for the new penitentiary there are about 500 acres of as fine blue grass pasture as lays out of doors

## WARNING IS ISSUED BY THE STATE CIVIL SERVICE COMMISSION

The circulation of political petitions by any state or municipal employee under Civil Service for any candidate, for any office on any ticket is a violation of Section 23 of the State Civil Service Act, and any employee of the state, or of any political sub-division, who violates this law will be recommended for dismissal from the service.

This is the ruling of the State Civil Service Commission at Columbus, and the cooperation of the county and municipal officers is requested in seeing that this section is not violated. Information has come to the State Commission to the effect that in a few places the law is being ignored. Investigations as to these alleged violations will be put under way at once, and dismissal from service seems to be awaiting those who continue to violate the law.

The State Commission is determined to stop the political activity of civil service employees, and neither their political affiliations, or the endorsements of friends and committees will save their jobs if they violate the state law.

Candidates for office should not request Civil Service employees to circulate their petitions, and appointing officers should discourage the practice with all their power, because

## Insurance and the Rates

The same question which is bobbing up with such frequency in these days of progressive legislation—the right of law-making power of the several states to fix prices—has recently been decided by the United State Supreme court in the affirmative.

The question in this last instance was presented when the validity of the Kansas statute fixing the limit of insurance rates was attacked.

Three of the members of the Supreme court are not in accord with the opinion announced and assert that the conclusion reached by the majority of the court is an entering wedge for the successful assertion of the legislative right to fix the price of all commodities, including labor.

The majority opinion is justified on the ground of public policy—that the matter of insurance is one of such great public interest that it warrants, on the principle of preserving the superior rights of the public, a decree of legislative jurisdiction before which the constitutional right of the American citizen to conduct his own private business affairs in such manner as he sees fit, must give way.

The claim that the great insurance companies are in collusion to fix rates and keep them up and in pursuance of that collusion the rates of insurance are arbitrarily fixed at a figure in excess of the true amount, has grown steadily all over the country during the last few years.

The decision of the United States courts in a measure recognizes that contention and in upholding the Kansas law, in effect, holds that private enterprise has made of a legitimate business—a business necessity as insurance is now recognized to be—the vehicle to perpetrate a fraud on the public.

The right of the public authorities through the legislative bodies to regulate or to impose a burden or restriction on privately controlled business has always been a very close one and one about which eminent legal authorities differed widely in opinion even after the precise question under consideration had been finally disposed of by the court of last resort.

\* Private citizens have looked with disfavor, in the majority of instances, upon the encroachment of regulatory laws upon the sacred domain of private business.

As the three dissenting members of the Supreme court point out, each decision upholding the right of the law-making power to regulate privately conducted business opens the door, behind which private rights are housed, just a little bit wider and each decision must, of necessity, take away one more private right, justifying the taking on the ground that public policy and public welfare demands its surrender.

It has not been so very many years ago since insurance was regarded as a gambling contract and by some courts held invalid for that reason.

Now we have the courts not only decreeing the validity of such contracts, but declaring that insurance has become a public necessity of such magnitude in the business world, as to justify the intervention of the law-making power to compel privately conducted companies to furnish the public insurance protection at a rate which affords no more than a reasonable profit over and above the reserve funds needed to protect the insured.

## Efforts to Subordinate Our Courts to Hasty Vote of Electorate Radical and Dangerous

Photo by American Press Association.

By Former President WILLIAM H. TAFT

WE ARE AT A CRISIS WITH RESPECT TO THE FORM OF OUR POPULAR GOVERNMENT. WE FIND A FORMIDABLE MOVEMENT THROUGHOUT THE COUNTRY TOWARD A DESTRUCTION OF ITS REPRESENTATIVE CHARACTER AND THE REVERSION TO AN OLD TYPE THAT IN THE HISTORY OF THE WORLD HAS PROVED A FAILURE, CALLED PURE DEMOCRACY. BUT MORE RADICAL AND DANGEROUS THAN THIS IS THE EFFORT BEING MADE TO SUBORDINATE OUR COURTS IN THEIR ADMINISTRATION OF JUSTICE TO RULES OF DECISION AND STANDARDS OF EQUITY AND JUSTICE THAT ARE TO BE DETERMINED ARBITRARILY BY THE HASTY VOTE OF AN ELECTORATE.

There is a proposal to BRING THE COURTS UNDER THE DOMINATION OF A POLITICAL SOVEREIGN. The courts were subjected to similar dominations in the times of the Stuarts and Tudors, and that was one of the causes leading to the rebellion of 1630 and the revolution of 1688.

## Poetry For Today

### HELLO, MAY!

Hello, May!  
Sister April's just departed;  
Left just as you came.  
Didn't leave us broken-hearted—  
She's a fickle dame!  
Yes'm! Played at being you!  
Played at being June!  
Played at old November, too!  
And always out of tune!  
Made believe! The deuce is in it!  
Sometimes she was mighty trying.  
Never was herself a minute—  
Save when she was crying.  
Gee, but here's happy day!  
Bless your heart, I'm glad to see you!  
Take a chair, my dear! How be you!

Hello, May!  
Fashion follows where you lead it—  
Gowned in green and white,—  
Touch of color where you need it—  
Dream of soft delight!  
Yes'm! You deserve my praise!  
When all's said and done  
I regret your happy days  
Are only thirty-one!  
We could wish your visit longer!  
Not more frequent!—No, miss!  
Moving Days has somewhat stronger  
Arguments to show, miss!  
Gee, we're beating Moving Day!  
Just the same (through barring showers)  
You're as welcome as your flowers!  
Hello, May!

## WILSON SELECTS RESERVE BOARD

### Awaits Olney's Acceptance of the Chairmanship.

Washington, May 5.—President Wilson has completed his selections for the federal reserve board, and unless some of these decline membership the five nominations will be sent to the senate this week.

Four of the men to whom the president tendered places on the board are: Richard Olney of Boston, former secretary of state, who has been offered the chairmanship; Paul M. Warburg of Kuhn, Loeb & Company, New York; W. P. C. Harding, president of the First National bank of Birmingham, Ala.; Harry A. Wheeler, president of the Union Trust company of Chicago. The fifth member will be from the Pacific coast. Dr. A. C. Miller of San Francisco, an authority on finance, is likely to be selected.

The question of greatest interest in connection with the president's selections relates to Mr. Olney's attitude toward the offer. Strong doubt exists in the minds of many persons at the capital that Mr. Olney will accept.

Mr. Olney was visited in Boston last week by Cole M. House of Texas, who informed him of the president's desire to name him chairman of the board. He consented to take the proffer under consideration, but his final answer has not yet been sent to the White House.

Mr. Olney if he accepts will represent New England on the board. Mr. Warburg will represent the east, Mr. Harding the south, Mr. Wheeler the middle west, and the fifth member will represent the far west.

Cleveland, O., May 5.—Police blame the Dirty Dozen gang for an assault which caused the death in a hospital of Kariakos Osek. Osek was beaten near his home by three men, who knocked him down, then jumped on him, crushing his head and chest. Three men, arrested shortly after the assault, have been rebooked on charges of murder.

## DISEASE DANGERS DOWN IN MEXICO

If the United States army should be forced to enter a drawn out campaign in Mexico the germs of malaria, yellow fever, typhus fever and smallpox will become a greater source of danger to American soldiers than all the leaden bullets and exploding shells which may be fired by opposing forces, says an exchange. This is the opinion of officers of the medical corps of the army and navy and of the United States public health service.

Although physicians and public health authorities of Mexico have given much attention to the study of sanitation, less progress has been made in getting co-operation of the people in enforcement of health laws than in almost any other part of the civilized world.

Many of the Mexican people are indifferent to personal hygiene. The natives submit to attacks of contagious diseases as a matter of course, and many have become immune from further attacks after they have suffered from yellow fever, smallpox or other diseases, some of which always are prevalent in the chaotic southern republic.

Surgeon Generals William C. Gorgas of the army and William C. Braisted of the navy, and Rupert Blue of the United States public health service believe the progress made by the United States in study and prevention of contagious diseases places this government in a better position to solve the health problems of its army and navy than has been enjoyed by any other country.

Every precaution will be taken by the men of the medical corps of the army and navy to protect the health of the men fighting under the Stars and Stripes in Mexico.

Until the American fighting men become acclimated, however, they will have to be careful in keeping away from sources of contagion, and in giving as much attention to bodily cleanliness and other details of personal hygiene as service in the field and on ships will permit.

Scores of skilled surgeons and physicians in the army and navy medical corps will work every day on the campaign to keep the men in good health and the laws also embodied.

# REGULAR MONTHLY SESSION OF CITY COUNCIL IS HELD

Many Ordinances Come Up For Action, Including Appropriation and Annexation Ordinances — Police Gong Also Discussed—Improvement of Oakland Avenue Tabled—Other Business.

All members of council were present at the regular monthly meeting Monday night. Very few visitors were present.

After the minutes had been read and approved, Sheets, speaking for the Service committee, reported on the application for a street light on Lakeview avenue, and stated that there was no question but what there was no question about the light being needed, but owing to the present financial condition, would recommend that it be carried over for the present. The report was accepted.

The committee appointed to investigate the paving on Circle avenue, asked for more time, and received it.

More time was granted the committee which was appointed to investigate the N. North street paving.

A report from the Ways and Means committee stated that bids on the \$2750 street improvement bonds had been opened, and the Commercial bank bid par and accrued interest to date of delivery, and \$12.50 premium. The R. L. Dowling company's bid was \$2.50 higher than that of the Commercial bank, and the bonds were awarded to the Dowling company.

Sheets moved that the Civil Service salary ordinance, vetoed by Mayor Coffey, be passed over the Mayor's veto. When the question was put to a vote, Howell, Sheets, Rowe and Whelpley voted against it, and the ordinance was killed.

One councilman stated that no salaries could be fixed until there was money appropriated to pay the salary. The solicitor stated that the money had been appropriated at the time the salary ordinance was passed. This was not recalled by some of the councilmen.

The East End sewer matter was taken up, and was discussed for a

short time and laid on the table until the next meeting. There was some misunderstanding as to the last proceedings in the matter.

An ordinance to appropriate the right of way across the B. & O. railroad, for the opening of Pearl and Grace streets, was placed upon its first reading. Veail then moved for a suspension of the rules and placing the ordinance upon its various readings. Rowe thought Grace street should be improved before opened. Solicitor Gregg explained that the action was necessary for the city to obtain what it desired in the opening of the two streets. The ordinance was then read and passed.

Next was an ordinance to annex 3.09 acres of land south of Washington avenue, east of Elm street. This was placed in the hands of the Annexation committee.

An ordinance was then submitted to appropriate certain property for the opening of Oak street, and obtaining a permanent crossing over the D. T. & I. railroad.

Veail explained that the land had been given to Mrs. Tracey, and that all that was desired was to obtain a permanent crossing over the railroad, as the railroad had given notice that no permanent crossing would be laid until it was decided who owned the street.

This matter has been pending for several years.

M. Tracey stated that the land did not now belong to the city, but to the Traceys, the idea of condemning it was to get the street into the hands of the city. Howell asked who owned the title. Solicitor Gregg stated that the title belonged to the Misses Gardner, subject to an easement of the Traceys.

Veail moved that the rules be suspended and the ordinance placed upon its various readings. Sheets thought a committee should be appointed to confer with the Misses Gardner. Veail stated that had been tried before, and no satisfaction had been secured. Veail then withdrew his motion and moved to place the problem in the hands of the Service committee. This was done, M. Tracey voting no.

The ordinance to improve Oakland avenue from Clinton to Leesburg avenue was carried over until the next meeting, when Attorney Cary Baughn stated that he represented four-fifths of the property owners, and that they did not want the improvement. He asked that the ordinance be carried over until the next meeting.

Mayor Coffey's report for the month of April was read and accepted. The report showed a total collection of fines and license amounting to \$64.

Auditor McFadden's report was read and accepted. The report shows that on April 30 the balances in the various funds was: General, \$891.44; Safety, \$1,292.07; Health, \$222.92; and Service, \$648.55.

President Melvin stated that he had been asked to present to council the application of the Slagle Lumber company to erect a bridge over the sidewalk, in order to handle their lumber to better advantage without danger to the public. The application was referred to a committee.

A letter from the Ohio Highway Advertising Company, asking for permission to furnish free refuse collectors, bearing advertisements on the sides, was read, and referred to the Health committee. This application has been considered for months, but has been referred to committees, the city having the receptacles without disfigurement at the present time.

A committee was appointed to in-

vestigate the opening of an alley south of and paralleling Broadway. Veail brought before council the matter of installing a police gong at police headquarters, at a cost of approximately \$15. The Safety Director was authorized to investigate and secure prices on a suitable gong. The intention of the gong is to notify the police when a call comes into either telephone exchange, particularly at night. By pressing a button the telephone operator rings the gong, summoning the police from their beats. Adjournment was then taken.

## MOTHERS ARE AWARDED PENSIONS

Judge Allen has just awarded nine pensions to as many needy widows, the amounts ranging from \$2 to \$15 per month.

Those who were awarded pensions are: Mrs. Dora Pierce, Mrs. Melissa N. Creamer, Mrs. Omg Whitmer, Mrs. C. V. Bogard, Mrs. Christina Cable, Mrs. Etta Houseman, Mrs. Mae Wells, Mrs. Olive Myers, Mrs. Ann Johnson.

Two or three applicants were refused pensions. The amount of the pensions varied according to the age of the applicant, the number of children, condition of applicant's health, and general circumstances surrounding the applicant.

## BUSINESS CHANGES ARE NOW UNDER WAY

Three business changes of importance are being made at the present time. The Con Ducey Plumbing establishment has moved across the street into the room recently vacated by Al Melvin's store, and a large portion of the business room just vacated by Mr. Ducey, in the Karney block, will be utilized by Mr. Frank Bending in extending his billiard parlors.

After some changes are made in the room vacated by Mr. Ducey, Mr. Carl Summers will move his music store from the Murray room to the front portion of the business room formerly occupied by Mr. Ducey.

## TEACHERS EMPLOYED FOR COMING TERM

The Board of Education of Jefferson township has employed the following teachers for the 1914-15 term: Sub-district No. 1—Corrine Conner; No. 2, Maude Cox; No. 3, Harry Blue; No. 4, not employed; No. 5, Stella Wentz; No. 6, Bernice Allen; No. 7, Jessie Spellman; No. 8, Florence Grear; No. 9, Faith Straley; No. 10, Albert Vannorsdall and primary, Louise Fultz; No. 12, Flossie Straley; No. 13, Phemia Swiss; No. 14, Bess Blue.

The two or three places not supplied will probably be filled in the near future.

## THINKS CHESTNUT MIGHT KILL HIM

John Tatman appeared before Mayor Coffey Tuesday morning and filed application for a peace warrant against George Chestnut, whom he says he is afraid will kill him or do him bodily harm.

Tatman complained of his treatment at the hands of Chestnut, and after hearing his story, the affidavit was filed and a warrant issued for the apprehension of Chestnut.

## TUBE INSERTED CHILD RECOVERS

Mary Elizabeth, the five-year-old daughter of Dr. and Mrs. Wm. Francis, of South Charleston, who was brought to this city Monday morning to have a silver tube inserted in the throat, was able to return to her home in South Charleston, Tuesday morning, the tube being inserted about 7:30 Monday night after an anaesthetic had been administered.

Some delay in inserting the tube, which had been jerked out during play, was occasioned by the child's mother not desiring the work done until later in the day, but Dr. R. M. Hughey, who had charge of the case, prepared the tube so that it was slipped into place almost instantly and without irritating the incision. As soon as the child regained consciousness she asked if it was a new tube that had been inserted. "It seems like a new one" she explained when informed that it was the one she had been used to.

Owing to the peculiar nature of the case, it has elicited a great deal of interest.

## In Social Circles

The girls of the M. H. G. and the Philathea Sunday School classes, are indebted to their teachers, Mrs. Austin F. Hopkins and Miss Emma Jackson for many enjoyable affairs, but none of more distinctive pleasure, nor on a more elaborate scale than the supper given by Mrs. Hopkins and Miss Jackson to their classes Monday night at 6:30 in the basement dining room of the Presbyterian church.

Fifty girls responded to the invitations and Rev. and Mrs. Wm. B. Gage, S. S. Supt. M. E. Hitchcock and wife, and Mr. Hopkins also included among the guests.

The long tables were arranged in the form of the letter "H", and presented an exceedingly pretty and spring-like appearance with an immense bowl of purple lilacs on the center table and vases of red buds adorning the others. A crimson note of color was effectively introduced in the delicious supper served.

At the close of the supper, Supt. Hitchcock made an able little address, and two interesting reports of conventions were given Mrs. John McConaughy, as delegate from the Philathea class to the Presbyterian meeting at Wilmington, gave that report, and Miss Inez Rodgers, delegate from the M. H. G. class to the Foreign Missionary Conference in Pittsburgh, Pa., gave the report of that meeting.

The girls of these two classes are jointly educating a girl in the Laura Sunderland School of Concord, N. C., and were much interested in letters read by Miss Jackson from both their proteges and a general letter from the Principal of the school.

Mrs. Gage and Mrs. Hitchcock gave in an informal way, their impressions of the Presbyterian meeting, and the evening closed with a social time.

Mrs. Robert Howat entertained the closing meeting of the Monday Bridge club yesterday.

Mr. and Mrs. Clayte Parrett and son, Mr. Gale Parrett, entertained Sunday and Monday with two fish dinners that were among the most enjoyable affairs of the neighborhood this season.

Having been very successful in a big catch of fish, weighing altogether 25 lbs., on two successive evenings, the Parretts generously included some of their friends, who thoroughly appreciated the unusual treat of the fish dinners.

The guests included Mr. and Mrs. Frank L. Parrett, Mr. and Mrs. Tom Vesey, Mr. T. C. Kirk and family, Mr. Roy Heglar and family, Mr. and Mrs. Val McCoy, Miss Mary Robinson, Mr. Howard Heglar.

## SOFT PEDAL IS PLACED ON SHOW

After a visit to the grounds of the Wieder Amusement Company, which pitched its tents in this city first of the week, Chief of Police D. L. Moore ordered the "soft pedal" but on one of the shows which he regarded as not being as moral as it should be.

The order was complied with, and the authorities announce that no immoral shows will be permitted to exhibit in the city.

NOTICE.  
The regular monthly meeting of Class No. 2 of East End Chapel, will be held Wednesday evening at 7:30 o'clock at the home of Mrs. Compton on E. Yeoman St. All members cordially invited.

# FIRST CLUSTER LIGHTS TO BE INSTALLED ON COURT ST.

Some time during the summer, unless present plans are abandoned, Craig Brothers will install the first cluster street lights in the city.

The cluster lights form part of the plans for remodeling and beautifying the Craig Brothers store during the summer, and two modern cluster lights are planned to be placed upon the sidewalk close to the curb in front of the store.

The installation of the lights may eventually mean the adoption of the cluster lights for lighting the business district of the city.

Friday of this week bids will be opened for remodeling the entire front of the Craig Brothers store.

and when the work is completed, it is expected that the store will assume a much more metropolitan air, as the huge stairway is to be removed, and a 3 1/2 foot stairway built on the east side of the store, while the front is to be altered and modernized. The walls will be removed to the second floor, and steel supports will be installed, and a beautiful glass front added.

Actual work on the building will begin within the next few weeks, and the big store will be completely changed in front, and more than 2,000 square feet of floor space will be added on the second floor, while the main entrance will be located where the present stairway is.

## PERSONAL PARAGRAPHS

## MONEY IS POISON TO THIS BANKER

Mr. S. M. Taggart, cashier of the Citizens' Bank of Jeffersonville, was in the city Tuesday to obtain treatment for a badly infected eye, caused by handling money, which evidently carried germs of a very poisonous nature.

Mr. Taggart was handling paper money, and unthinkingly rubbed his left eye. Almost instantly the eye commenced to pain him, and in a few moments it became inflamed. He used home remedies until the eye became so painful and irritated that he deemed it necessary to come to this city for attention. Mr. Taggart states that this is not the first time he has been poisoned by handling infected money.

## TAKEN TO DAYTON FOR NON-SUPPORT

Fred Stevens was arrested in this city by Chief Moore, Tuesday morning, and turned over to an officer from Dayton, who was here after the man on a charge of non-support.

CARRANZA DROPPED  
FROM THE CONFAB

Mediators Withdraw Their Invitation to Rebel Chief.

NEW TURN TO MEXICAN FUSS

Action of Carranza in Refusing to Enter into an Armistice With Huerta Displeases the Peace Envoys, Who Feel They Are Being Used as Catapult to Accomplish Huerta's Downfall.

Washington, May 5.—A new turn came in the Mexican situation when it was announced in Washington that the mediators have withdrawn their invitation to Carranza to participate in the mediation program.

This action was taken because of Carranza's refusal to enter into an armistice with Huerta pending the effort to bring about a peaceful settlement of Mexico's internal differences.

What effect such a development will have upon the progress of events in Mexico can only be conjectured here. The United States stipulated in its original acceptance of the mediation invitation that all factions in Mexico should be made parties to the program. The report of the withdrawal of the invitation to Carranza came on top of many disquieting rumors to the effect that the mediators were displeased with the way Carranza was acting and that they feared they were being used as a catapult to accomplish the downfall of Huerta.

In a telegram to General Carranza the mediators announced that, in view of his refusal to agree to an armistice with General Huerta, they withdrew their invitation to him to send a personal representative to participate in the mediation negotiations.

The mediators told the Constitutionalist leader that as long as he maintains his present attitude they must decline to treat with him.

General Carranza had inquired in a note to the envoys what subjects a representative might be required to discuss, pointing out that if the general problem of pacifying Mexico were to be approached he could not authorize anyone to participate in the negotiations. He reiterated that he would consent to mediation only on the incidents which had brought about a controversy "between the United States and Mexico," holding that he is the constitutionally chosen leader, to whom complaint about the

insult at Tampico and other offenses originally should have been made.

In their telegram the mediators quoted Carranza's last note to them. They can not separate the incidents at Tampico and elsewhere which brought about friction between Mexico and the United States from the general subject of pacifying Mexico.

HUERTA WILL  
NEVER RESIGN

Vera Cruz, May 5.—While American refugees may differ as to the situation at Mexico City, all are agreed that there is a steadily swelling undercurrent of feeling against General Huerta. The split between General Blanquet is reported to be wider than at any time, the activity of the Catholic party, the growing feeling of the business element of the capital that there can never be peace so long as Huerta holds sway, all seem to them to be signs of an impending change.

Some of the American refugees profess to have the word direct from confidants of Huerta that while he will never resign, he does not think a coup such as unseated and killed President Madero is impossible. He has said grimly that he will be ready to meet it; he may lose his life, but he will not quit before it.

So far as anti-American sentiment is concerned they say that it is very quiet now, although it would not take any very considerable incident to revive it again. The bombardment of Tampico or Manzanillo, or the occupation of another port, would render the situation of Americans in the interior more perilous.

EXCHANGE SHOTS  
ON BATTLE EVE

Inarez, Mexico, May 5.—General Villa's campaign against the combined federal forces of Generals Velasco, Maas and De Moure in Saltillo opened with an exchange of rifle fire by the outposts. The preliminary skirmish marked the arrival of the Constitutionalist vanguard before the city. The movement of Villa's main army is well under way and rebel officials predicted that before the end of the present week the cannon and machine guns, supported by the rifle fire of an army of 18,000, would be pounding the federal entrenchments.

NEW DECORATION

Mexico City, May 5.—The federal government created a new military decoration, to be known as that of the "Second North American Invasion." The defenders of Vera Cruz, when the American bluejackets and marines landed there, are to be rewarded with this decoration, it is said.

MEXICAN VETS  
WILL ASSEMBLE

Chillicothe, O., May 5. — Mexican war veterans and members of their families will gather here June 9 and 10 for the reunion of state and national associations. At this reunion a committee will be appointed to place the associations' records in the national capitol for safe keeping. Captain John A. Fisher of this city is president of the national association and vice president of the state association. John Conwell of Cadiz is president of the state association.

OHIOAN AMONG  
COLORADO DEAD

Port Clinton, O., May 5.—Word has been received by George and Albert Kessler at Oak Harbor announcing the death of their brother, Edward Kessler, who was one of the victims of the Colorado riots. Kessler was a carpenter and took no part in the strike, but was killed during one of the riots.

KERMIT TO BE  
MARRIED IN JUNE

Madrid, May 5. — Miss Belle Willard, daughter of the American ambassador to Spain, Joseph E. Willard, has received a telegram from Kermit Roosevelt, to whom she is engaged to be married, saying he will arrive in Lisbon May 20. Kermit will be married in June.

PHYSICIANS MEET

Columbus, O., May 5.—Physicians from all parts of Ohio are attending the sixty-ninth annual meeting of the Ohio State Medical association, which opened at Memorial hall today. More than 1,000 delegates and visitors are present. Sessions will be held morning and afternoon until noon Thursday. All of the addresses will contain something of popular interest and this year, for the first time, all of the sessions will be open to the public.

DAYTON CLASH

Dayton, O., May 5.—The first clash between the striking painters and the employers took place when police protection was given a squad of painters working on a downtown building and who had refused to join the strikers. Thirty-five master painters signed an agreement to stand pat on refusal to accept the demands of the strikers for a 45-cent schedule per hour and an eight-hour working day.

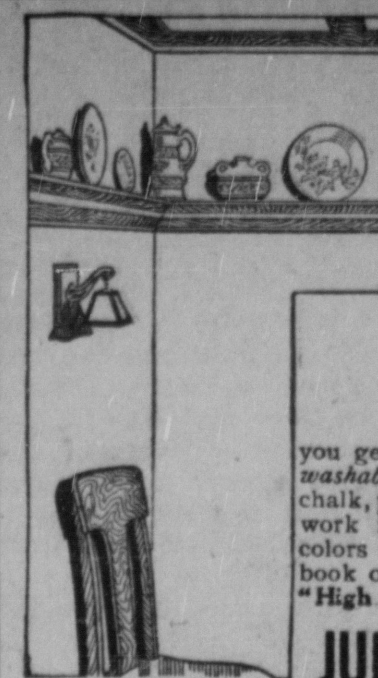

TWO KILLED

New York, May 5.—Christopher Dunn, a cocaine sniffer; Richard J. De Silva and Walter W. Leipold, dishonorably discharged from the United States navy after serving 18 months for robbery on a battleship, met and resolved to raise a little money by burglary. The outcome was that Policeman Michael J. Kiley and Athanasios Basibosis, a restaurant keeper, are dead, shot to death, and the three young men are in jail charged with murder in the first degree. The Greek was shot when the three attempted to hold up his restaurant and the policeman was killed by Dunn, whom he stopped as the man was fleeing through the streets. Dunn made a complete confession to Assistant District Attorney Conway.

VIOLENCE FEARED  
IN COAL FIELDS

Charleston, W. Va., May 5. — D's orders rivaling those of the bloody strike in Paint and Cabin Creek districts are expected during the present strike of miners in the Kanawha coal district. The miners are remaining out over the protest of union officials and are now awaiting an official interpretation of a clause of the present wage contract which mine officials declare the miners violated when they refused to return to work last Friday.

While there has been thus far no attempt at violence, it is reported from Paint Creek that the miners there have made plans to march to the nonunion mines at Keferston and Kingston and demand that the unorganized mines close down. There are 12,000 miners out.

IMPEACHMENT PLAN DOOMED

Governor's Friends Control Both Branches of the Colorado General Assembly — Compulsory Arbitration Measure Encounters Serious Opposition—Nine Hundred Additional Troops Arrive in Strike Zone.

Denver, Colo., May 5.—Foundation has been laid by the majority to resist all efforts at impeachment as well as all other questions not in Governor Ammons' call for the special session. In both houses it was found that the governor has sufficient strength to defeat any impeachment resolution. The governor won his first point when John H. Slattery, an old-line Democrat, was elected speaker of the house.

A bill already prepared providing for compulsory arbitration of all labor questions probably will fall with the impeachment resolution. Only a compromise can save this measure. It is pretty clearly established that the forces which are supporting Ammons are opposed to the arbitration proposal.

CAUGHT JOHN

Cleveland, O., May 5.—While John D. Rockefeller, the Standard Oil king, has been able so far to evade the district tax assessors at Cleveland, his agencies were not so successful in Hancock county, where a \$10,000,000 increase in the valuation of the property of the Ohio Oil company, a subsidiary of the Standard, was tacked on by District Assessor Theodore Bayless.

MILLIONAIRE  
FACES PRISON

Chicago, May 5. — John F. Jelke, millionaire manufacturer of oleomargarine, was sentenced to two years in the government prison at Leavenworth, Kan., and fined \$10,000 by Federal Judge Geiger in the United States district court. Each of seven other defendants convicted with Jelke of conspiring to defraud the government of the 10-cent tax on colored oleomargarine was fined \$2,500. The cases will be appealed.

Read the Classified Columns.

Those favoring impeachment will fight any measure providing pay for the state soldiers for past duty. They base their opposition on the allegation that men who fought the strikers were in the pay of coal corporations. On the other hand, the governor's friends will introduce a militia bill with this additional feature: that a state constabulary be created similar to that in Pennsylvania or in Texas.

General John Chase announced that he is preparing a request for the courtmartialing of all state soldiers who participated in the killing at the Ludlow tent colony. He will base his action on the report of the military committee that the soldiers deliberately burned and looted the tents where two women and 11 children perished.

Nine hundred men, composing the Eleventh United States cavalry, arrived in Trinidad today. Disarmament has become the dominant question in the strike. The companies, it is said, stand ready to deliver the weapons of their mine guards as soon as Colonel Lockett is ready to assume charge of the properties. Substantially the same pledges were made by officials of the United Mine Workers in behalf of their men.

SPARTANA is a varnish stain. Popular, because practical—made by a practical house. For re-finishing floors, wood-work and scuffed furniture it has no equal.

Made in a great variety of colors and shades, it is a universal beautifier, re-newer and home brightener. The surface it produces is hard, elastic, lasting. Get a can and get busy.

## MAY GRAND JURY RETURNS SIX TRUE BILLS LATE TODAY

The May Grand Jury filed its report at 3:25 Tuesday afternoon, returning six true bills, and ignoring four cases of the ten examined.

Over 46 witnesses were examined during the two days' session, and the jail was visited and found in good condition.

The indictments returned are as follows:

Bertha Hutchinson, manslaughter. She is accused of murdering her infant daughter on January 8th.

Lee Huffman, arson. Huffman is the young man of near Bookwalter who is accused of setting fire to the John Swaney home near Shady Grove on the night of December 24th.

Kirby McCarty, shooting to kill, with count for shooting to wound. He is the youth accused of the shooting of Koscoe Vivens one night some seven weeks ago.

Kirby McCarty, carrying concealed weapons.

John Curtis and Leonard Wilson, for burglary and larceny. These are the two colored men arrested for robbing the freight depot at Fairview.

Carry Reeves, disturbing a religious meeting.

Cases ignored are: Wilbur Smith, cutting to wound; Wilbur Burchell and James Wilson, assault.

## NEW OFFICERS ARE ELECTED

At the regular meeting of Company M, Monday night two new officers were chosen to fill vacancies caused by resignations several weeks ago.

Ralph Hess was chosen for first lieutenant, and Henton Cook for second lieutenant.

Hess was formerly a member of the Guard, but not in this state. Cook is one of the local company's most efficient men.

## IS TAKEN BACK TO THE O. H. E.

Grover Pyles, a young man who was taken to the Ohio Home for Epileptics, at Gallipolis, some months ago, took French leave of that institution a few days ago, and was Tuesday morning apprehended by Deputy Sheriff Nelson and Guard Mossman, of the O. H. E., and was returned to the institution in care of Guard Mossman.

## JUSTICE OFFICIATES

Cleveland Long, a young farmer of near Cooks Station, and Miss Lucy Estle, of this city, were united in marriage at the Probate Judge's office, Monday afternoon, Justice Craig officiating.

The newly married couple will make their home near Cooks.

## FAYETTE CREDIT BUREAU GROWING

The Fayette Credit Bureau, organized a few months ago, along original lines carefully planned by Mr. M. E. Hitchcock, is proving itself a valuable institution to Washington business men, and is rapidly eliminating old accounts, and the incurring of bad credits.

At the present time there are 95 business and professional men in this city who are members of the Bureau, and who are enthused over the good results obtained.

It is quite complimentary to Mr. Hitchcock to know that a number of surrounding cities are adopting a plan as near similar to the one he has established, as it is possible without taking his plan outright. Several persons from surrounding cities, who have learned of the success of the Fayette Credit Bureau, have come here to consult with Mr. Hitchcock, with a view to adopting his methods.

Next month he will organize the various towns of the county, and will add several dozen more new members to the Bureau. At the present time he has the rating of virtually every one in the county who does a credit business.

## BIG GAINS ARE SHOWN IN GREENE

To date the increase in the tax duplicate in Greene county, has been \$1,374,552 on 3812 personal tax returns.

Reports from Xenia show a gain of \$404,134 in that city, \$229,783 in the villages, and \$749,635 in the townships.

In Fayette county the duplicate continues to grow, and District Assessor Dunn expects to have complete returns within a week or ten days.

## GRANT APPEAL IN BALL CASE

By Associated Press.

Cincinnati, Ohio, May 5.—Judge Sessions, of the U. S. Circuit court of appeals, announced today that he had granted an appeal in the Federal Baseball case relative to player Killifer, which was decided against it at Grand Rapids several weeks ago.

## MINERS GO BACK

By Associated Press.

Indianapolis, Ind., May 5.—Coal miners of the Kanawha district of West Virginia, were ordered to return to their work today, and continue operations of the mines until either a new contract is signed, or negotiations with the operators were severed.

This action was taken by the International Executive Board of the United Mine Workers of America in session here.

The board decided today that a committee be appointed to draft a policy which the board should pursue in the Colorado strike.

A committee of Ohio miners was to be heard this afternoon.

## DOGGE SUFFRAGE AND PROHIBITION

By Associated Press.

Washington, D. C., May 5.—Joint resolutions proposing amendments to the Federal constitution giving the right of suffrage to women, and national prohibition were ordered reported without recommendation to the House. This leaves both proposals to the House for decision without suggestion from the committee.

## MORE CONCRETE ROADS FOR ROSS

The contract for two miles of concrete roadway in Ross county has been let. One job, in Green township, was let at a cost of \$12,457, while the second job costs \$14,241.66. S. M. Perry of Frankfort was awarded the last mentioned contract.

It is figured that by constructing concrete instead of brick, a saving of \$5,700 was made, and that amount is to be used for the improvement of a half mile of road near Chillicothe.

## IN MEMORIAM.

"Not dead, but sleeping."

"Night came, releasing them from labor—

When a hand from out of darkness Touched them and they slept."

Mrs. Jessie Mildred (Corbitt) Rodgers, the eldest daughter of Samuel Morgan and Mary Elizabeth Corbitt was born at the old homestead near Jeffersville, O., June 1st, 1868, departed this life April 30th, 1914, at the home of her mother in Jeffersville, aged 45 years, 10 months, 29 days. On July 12th, 1891 she was united in marriage to P. L. Rodgers of Washington C. H., O., and made that their home for many years.

She was a beautiful and noble woman and many have felt the benediction of her sweet Christian spirit.

She had been ill for four weeks, of ulceration of the stomach. Two weeks before her death she was taken to the home of her mother, that she might have the loving care of mother and sisters. There remain to mourn her loss, a husband, mother and two sisters, Mrs. Laura V. Bates and Miss Roxa L. Corbitt, the father and two sisters having preceded her to the eternal home.

"At even time it shall be light."

The funeral services were conducted from the home on Main street, Jeffersville at 2 p. m. Saturday, by the Rev. Daniel Bryant, of Zion City, Ill. Interment at Fairview cemetery.

War Department Learns of Preparation Made to Destroy the American Army Should It Undertake to Advance From Vera Cruz to Mexico City.

**GENERAL FUNSTON AND ADMIRAL BADGER ANXIOUS FOR ORDERS TO PUNISH ENEMIES**

**O'Shaughnessy's Baggage Stolen While Leaving Country on a Special Train Provided By Huerta—Americans Make Determined Effort to Release Silliman.**

By Associated Press.

Washington, D. C., May 5.—Information came from Vera Cruz to the War Department today that the Mexican Federals have mined the railway tracks from Vera Cruz to Mexico City in preparation for their utter destruction in the event that the Americans attempt to march on the capital. No confirmation had been received of reports that the San Francisco bridge on the Inter Oceanic Railway had been damaged.

The mines are reported located one half a mile apart and Mexican soldiers have been detailed to touch off the fuses should hostilities eventuate. These preparations and the throwing up of defenses, which are daily making the position of the Mexican Federals stronger, is continuing a source of worry to General Funston, and it is understood that he would welcome an order to start to march on the capital at once.

Rear Admiral Mayo, at Tampico, has informed the Navy Department that he would have no trouble in taking Tampico with his present force and it is hinted that he has repeatedly advised that such an action be taken.

Rear Admiral Mayo now has under his command, in addition to his flagship, the Des Moines, two cruisers and a torpedo boat flotilla of nine.

## ROBBED O'SHAUGHNESSY OF BAGGAGE

By Associated Press.

New Orleans, La., May 5.—The Mexicans did not even expect Nelson O'Shaughnessy, former Charge at Mexico City, in preying upon American property, after the fall of Vera Cruz. Practically all of the baggage of Mr. and Mrs. O'Shaughnessy was stolen from the special train Huerta provided for the Charge and his party to transport them to Vera Cruz after he had been handed his passports.

Mr. and Mrs. O'Shaughnessy arrived here today on the Yankton and will leave tonight for Washington.

## AMERICAN CONSUL HELD BY MAAS

By Associated Press.

Washington, D. C., May 5.—Alarmed by unofficial reports that Acting American Consul John R. Silliman, at San Luis Potosi, Mexico, has been a prisoner of General Maas, Mexican Federal commander, for two weeks, the State Department today sent an urgent telegram of inquiry concerning him to the Brazilian minister in Mexico City, and to Consul Hanna at Monterey. His regular post was at Saltillo, but he was transferred to San Luis Potosi in the present emergency.

## HUERTA FLEES FATAL STREET ON THURSDAY? CAR COLLISION

By Associated Press.

Vera Cruz, May 5.—Refugees arriving here from Mexico City bring conflicting rumors concerning the purposes of Provisional President Huerta. Some say that, realizing the hopelessness of the situation, he has agreed to retire from the presidency, fixing Thursday of this week as the day of his retirement.

Other reports declare that Huerta, instead of yielding, has determined to play out the game. He is fully aware that mediation will mean time, even if it does not lead to an amicable adjustment of the difficulties.

## READING TREATY

By Associated Press.

Bogota, Columbia, May 5.—The treaty between Columbia and the U. S., settling a long-standing dispute over Panama, passed its first reading in the Senate today.

## BISHOP CRUCIFIED BY MEXICAN REBELS.

San Francisco, May 5.—Among the tales of atrocities told by the refugees from the west coast of Mexico who arrived here on the steamer City of Sydney is that of the crucifixion of the Catholic bishop of Chalapa. According to the account a detachment of the rebel General Zapata's soldiers called on the bishop to surrender the funds of his church. He refused, whereupon the soldiers are said to have nailed him to a cross and left him there to die.

## DURVEA KILLED BY SON

By Associated Press.

New York, May 5.—In a cell in the Brooklyn police station Chester Durvea, who early today fired seven bullets into the body of his father, Hiram Durvea, millionaire starch manufacturer and veteran of the Civil War, killing him instantly, talked incoherently of the events leading up to the shooting, and gave evidence of being stark mad.

While talking, he dug his nails into the palms of his hands until they bled. He said he shot his father when he received a spiritualistic message from George Washington. In a saner and calmer tone he said, "I was the best friend my father had and he was the best friend I had. I loved him dearly. If he was here now he could explain all. I don't know why I shot him. I made up my mind if I killed him that I would kill myself, and I am sorry that I did not carry out my original intentions."

## ENTERED MINE AT FATAL HOUR

By Associated Press.

Eccles, W. Va., May 5.—The body of Freeman Linville, an insurance agent of Charleston, W. Va., who went down into the shaft of Mine No. 5 of the New River Coal Company before the explosion that claimed 172 lives last Tuesday, was recovered early today.

Identification was made by a masonic ring which he wore. Other bodies have been brought to the top during the night and it is thought that the mine will be entirely cleared by nightfall.

## TAMPICO FEDS ARE REINFORCED

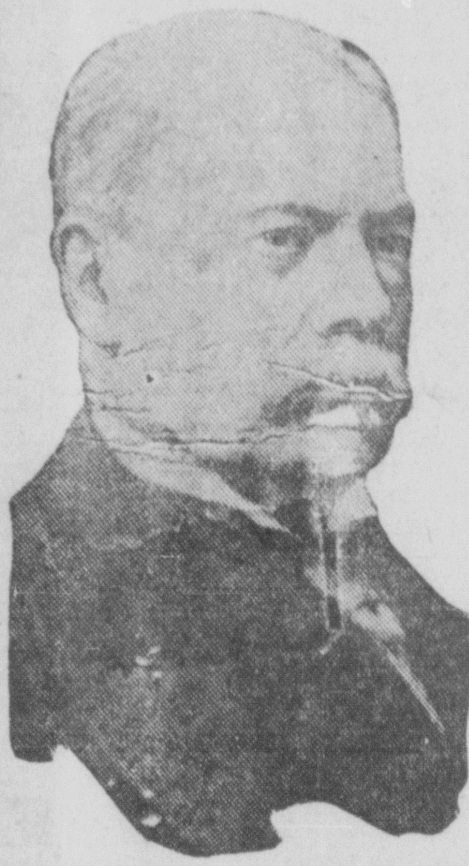

By Associated Press.

Washington, D. C., May 5.—Firing continues daily at Tampico between the Constitutionalists and Federals, according to a report transmitted from Rear Admiral Mayo by Rear Admiral Badger.

Heavy guns were heard yesterday morning. The steamer Camaguey, which arrived at Vera Cruz from Tampico, reports that the Federal forces were reinforced by 1500 men last week.

## JUDGE INJURED WHILE ON BENCH

By Associated Press.

Zanesville, Ohio, May 5.—Common Pleas Judge A. A. Frazier, of Muskingum county, was seriously and perhaps fatally injured at the court house this morning, when struck by a large piece of plaster cornice.

The striking weight of the town clock in the court house, weighing 1200 pounds, broke loose and fell 20 feet. It was stopped by a heavy iron beam, and great chunks of plaster fell. One of these struck Judge Frazier on the head. He is still unconscious and may die.

## LIPPITT HOT ON WILSON'S TRAIL

By Associated Press.

Washington, May 5.—A resolution calling upon President Wilson for information as to whether there is any basis for the statement published today that he may aid General Villa to become the next ruler of Mexico, was introduced in the Senate today by Senator Lippitt, of Rhode Island.

The resolution, under the objection of Senator Stone, chairman of the Foreign Relations Committee, went over until tomorrow.

## TIPPLE BURNED

By Associated Press.

Charleston, W. Va., May 5.—The tippie of the Hugeston mine of the Hugeston Coal and Coke Company, was burned early today, with a loss of \$500,000. The miners there are on a strike.

## WHOLE SITUATION IN THE MEDIATION

By Associated Press.

Washington, D. C., May 5.—The text of the Mexican mediators' telegram to General Carranza, eliminating him from the mediation proceedings, which became known today, disclosed for the first time that the mediators held that "all the differences which constitute the present situation in Mexico bear either directly or indirectly on the solution of the pending conference between Mexico and United States."

The mediators declare in answer that all these differences "should be made the subject of consideration in negotiations, for whose successful conduct we have decided it indispensable to suspend hostilities." Should Carranza not deem it so the mediators state they would be compelled to withdraw as inopportune the appointment of Constitutionalist representatives. This message is the first an horitative expression from them that they consider the whole Mexican difficulty, including the Huerta and Carranza issue, as having a bearing on the issue between the United States and Huerta.

For the first time since the occupation of Vera Cruz the Cabinet session lasted less than one hour. After the conference members said that there was practically no discussion of the Mexican situation. The whole time was taken up with regular parliamentary routine.

## English Would Ask America to Back Up

London, May 5.—Foreign Secretary Gray invited Sir John David Reese, Unionist in the House of Commons, to ask the American government "to abandon its position that the removal of Huerta is of greater moment than the restoration of peace and the protection of life and industry in Mexico." Sir John David Reese declined, declaring that in view of the fact that mediation had been undertaken by Argentina, Brazil and Chile, there could now be no useful purpose served for the British government to make separate proposals on its own account to either Washington or Mexico City.

## AMERICANS HELD BY FEDERALS

Washington, D. C., May 5.—Rear Admiral Badger has reported to the Navy department the receipt of word from the torpedo boat Dakin, at Tuxpan, that the authorities there had ordered custom officers not to enter or clear any vessels from or to American ports. It is reported that similar orders have been given in all parts of the state of Vera Cruz.

The Dakin also reports that 13 Americans have been detained against their will at Metlaloyuca, in the state of Puebla, 60 miles from Tuxpan. This information was given to the British Consul at Tuxpan by American refugees, who said that the Mexican authorities gave as their reason for holding the Americans a desire to assure their safety. The British Consul wired the governor of Puebla requesting their release.

## VASQUEZ IS SHOT

By Associated Press.

Washington, May 5.—Forces under Leonte Vasquez, which have been fighting in the neighborhood of LaVega, capital of the state of the same name in the dominican republic, have been routed and Vasquez wounded, according to a report received today by the Navy department.

## TWO SUCCUMB

Washington, May 5.—Two of the sailors, wounded in the occupation of

## MAY BE WINTERS GIRL

By Associated Press.

Charleston, W. Va., May 5.—A little girl answering the description of Catherine Winters, who disappeared from her home in Newcastle, Ind., has been located at the home of C. I. Sigman, at Kingston, near here.

A telegram has been sent to Dr. Winters, father of the girl, asking him to go to Kingston.

## PANAMA EXPLOSION KILLS EIGHT PERSONS

By Associated Press.

Panama, May 5.—An explosion this morning at the government of Panama dynamite magazine, resulting in the death of eight persons. Nineteen were seriously injured and considerable property was destroyed. The explosion was caused by a fresh fire, which made its way into the interior of the building.

Six of the dead and most of the wounded are firemen who were called to the scene to fight the flames. A man and a woman who were watching the fire at a distance, were torn to pieces. The concussion shook Panama. In addition to obliterating the magazine the explosion caused immense property damage in the neighborhood.

# YANKEE CONSUL HELD PRISONER

Threatened Every Night With Execution.

CAPTIVE OF GENERAL MAAS

Newspaper Correspondents Reach Vera Cruz and Tell Story of Predicament of Acting Consul Silliman at San Luis Potosi—Rebels to Fire Tampico If Admiral Mayo Makes Hostile Move.

Vera Cruz, May 5.—News reached here that John R. Silliman, acting American consul at San Luis Potosi, has been a prisoner in the hands of General Joaquin Maas, the federal commander, for 11 days, and has been threatened every night with execution.

The information about Silliman's predicament was brought here by two American newspaper correspondents, who had come to Mexico recently on the invitation of Provisional President Huerta. They went to the north to watch the field operations of the

federal army, and after they had witnessed the defeat of the federal troops at San Pedro were taken back to San Luis Potosi and imprisoned, but were afterward released.

Word was received here that Dr. Edward Ryan, an American who had been threatened with death at Zacatecas, has arrived at Mexico City and will be turned over to the Brazilian minister.

A message from Mexico also announces that Pedro Lascruain, a wealthy real estate dealer, who was minister of foreign affairs in the cabinet of the late President Madero, has disappeared from the capital.

The Constitutionalists at Tampico have notified Rear Admiral Mayo, commander of the American warships stationed there, that if any of his vessels attempt to enter the Panuco river, the oil reservoirs above the city will be emptied and the oil ignited, which will mean certain destruction to the town. This situation was reported by the commander of the United States torpedo boat destroyer Jenkins, which arrived at Vera Cruz from Tampico.

Both the federals and the rebels are reported to have planted mines in Tampico harbor. It is generally thought here that Admiral Mayo will await the capture of the city by the rebels through the slow process of starving out the federals.

the State Commission is determined to have the law enforced in spirit and letter, and having held that the circulation of petitions is a violation and means dismissal from service, there should be general obedience to its decision.—Civil Service Commission of Ohio.

## BURNING STEAMER

No Sign of Life Discovered On Board the Doomed Ship.

Halifax, N. S., May 5.—An unknown steamer, on fire from stem to stern, and with no signs of life on board, was discovered 300 miles south of Cape Race by the steamer Seydlitz, from Bremen for New York. The Seydlitz immediately called by wireless for assistance, and response came from the Franconia, 50 miles to the eastward, bound for Boston, and the Olympic, 200 miles to the west, headed for New York.

The Seydlitz circled around the burning vessel, but the smoke hung so heavy about her that her name could not be distinguished.

As no small boats were discovered in the vicinity it was believed here that the unnamed vessel caught fire some time after midnight and that all hands were rescued by some ship, which had no wireless.

The weather on the Grand Banks was moderate and it was thought that any transshipment could have been accomplished with no great difficulty or danger.

## WARNING IS ISSUED BY THE STATE CIVIL SERVICE COMMISSION

The circulation of political petitions by any state or municipal employee under Civil Service for any candidate, for any office on any ticket is a violation of Section 23 of the State Civil Service Act, and any employee of the state, or of any political sub-division, who violates this law will be recommended for dismissal from the service.

This is the ruling of the State Civil Service Commission at Columbus, and the cooperation of the county and municipal officers is requested in seeing that this section is not violated. Information has come to the State Commission to the effect that in a few places the law is being ignored. Investigations as to these alleged violations will be put under way at once, and dismissal from service seems to be awaiting those who continue to violate the law.

The State Commission is determined to stop the political activity of civil service employees, and neither their political affiliations, or the endorsements of friends and committees will save their jobs if they violate the state law.

Candidates for office should not request Civil Service employees to circulate their petitions, and appointing officers should discourage the practice with all their power, because

## QUEEN FEARS FOR HER LIFE

Sofia, May 5.—Queen Rumania of Bulgaria is not going to the United States, for the present at least. An official statement issued says present conditions in America are unfavorable to the proposed visit.

## VICIOUS ATTACK MAY END IN DEATH

When George Chaney, aged 44, stockkeeper, Hillsboro, O., and Edward Ross, 4765 Spring Grove avenue refused to give four men a nickel early yesterday morning they were set upon by the gang and badly beaten.

Chaney suffered a fractured skull. He is not expected to live. Ross sustained bruises of the face and head.

The assault occurred at Station and Spring Grove avenues. Chaney and Ross were walking along when the four men stopped them. They threatened the men with violence unless they gave them money.

Chaney and Ross refused, and before they could protect themselves both had been dealt stunning blows on the head. Not satisfied with knocking their victims down, the four ruffians kicked them in the head.

Ross, who was the least injured, notified the police, and a patrol wagon was sent to the scene. The men had fled and no trace of them could be obtained. It is believed that they were hoboes, who got off a freight train in Cumminsville.

Henry Boehn, patrolman on Auto Patrol 8, fell off the machine while it was speeding to the City Hospital with Chaney and Ross and was seriously injured.

The accident occurred in front of Spring Grove Cemetery. Boehn suffered a fracture of several fingers, bruises about the head and body and a probable fracture of the kneecap. He lives at 32 Calhoun street.—Commercial Tribune.

## WIFE KEPT LATE HOURS

H. Charles Dickey, who owns a 200 acre farm near Chillicothe and who lives at 310 West Seventh street, Cincinnati, was granted a decree Wednesday divorcing him from Pauline Dickey to whom he was married at Chillicothe May 29 of last year, says the Enquirer. Dickey told Judge Warner that his wife neglected his home, and had a habit of staying out two and three nights at a time and refusing to give him any explanation. A sum of alimony was agreed upon out of court and she did not contest.

The marriage license records of this county show that Dickey was married to Miss Pauline Ethlyn Aber of Bucks township, May 29, of last year by the Rev. William C. Stinson. Dickey gave his age at the time as 23, his occupation a farmer and residence, Paint township. The bride's age is given as 19.—Chillicothe News

## UNIQUE INDUSTRY ALONG SALT LAKE

The most unique salt industry in the world is now carried on along the borders of Great Salt Lake. The saline deposits of the lake are utilized commercially, and it is no uncommon sight to see plowmen breaking acres of the purest salt, while other workmen shovel the broken product into wheelbarrows and carry it to waiting cars for transportation to the refinery.

The early settlers of Salt Lake City and vicinity were accustomed to getting their salt along the edges of the lake. The little pools left along the edges of the lake in the spring soon dried in the hot summer sun, leaving deposits of the purest salt crystal. This was utilized by the settlers, but it was figured out that Great Salt Lake might be turned into a veritable salt factory.

In utilizing this great lake as a salt factory it was only necessary to improve somewhat upon the ideas of the pioneers. Instead of depending upon the pools that were left by nature, those who have developed the salt industry have made large, artificial ponds and settling basins. The usual course of procedure is to make one large "stock" or settling pond. This is surrounded by several smaller harvesting ponds, each about 800x1000 in area. About May 1, the stock pond is filled and the water is allowed to stand there until the impurities in the water settle to the bottom of the pond. It is not generally known that the waters of Great Salt Lake are heavily impregnated with iron as well as salt. This iron forms a large part of the impurities which settle to the bottom.

After the water in the stock pond has settled it is allowed to flow into the harvesting basins, which are only about six inches deep. The water in these large, shallow basins evaporates at the astounding rate of two inches a day during an ordinary Utah summer. The daily losses in the harvesting basins are made up from the stock pond. In this way the harvesting basins always have an accumulation of water, making salt under the action of the hot sun.

Among the impurities which are brought to light in the stock pond are large quantities of sodium sulphate. This impurity floats and is driven ashore by the wind. This is marketed for cattle, as it contains much salt. The remainder is very pure, and the salt which forms in the harvesting basin is sent directly to the refinery. Late in the summer, as harvesting time approaches, the sight of these harvesting basins is most unique. The basins stretch sometimes for a mile or more along the beach, glittering white in the sun.

September 1, is generally the beginning of the harvest. The last inch of brine in each harvesting basin is drained off as this contains some impurities which were not caught in the large stock basin. If the summer has been one of ordinary heat there will be a crust of at least six inches of salt in each basin. After the last inch of water has been drained off these great salt fields shine like snow. The salt is pure crystal and very hard. Men and teams are set to work with plows. As the white and glistening furrows are turned aside by the plowshares the salt is thrown into barrows by the shovel brigade, and carried to places which have been marked out as the sites of salt stacks. Here the salt is left in great piles, or rectangles, until it is needed.

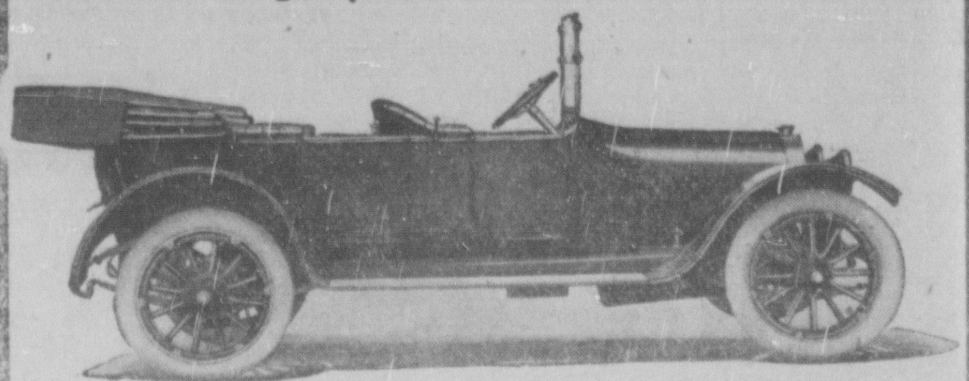

As the salt is needed, it is shoveled from the great salt piles into flat cars and taken to the refinery. Here it is dried in cylinders of heated iron, after which it is crushed between great rollers and elevated to the second floor, where it goes to what is known as the shaking sieve. This great sieve acts as a separator. The fine stuff is taken to the sacking room and the remainder is again put through the rolling process.

## STEERS PURCHASED FOR THAT NEW FARM

Columbus, May 5.—Ten carloads of fine young western steers were unloaded on the recently acquired rural prison site in Madison county during the past week. These animals were purchased in Chicago and will average about 900 pounds each. Within the next 30 days between 300 and 400 more will be purchased and shipped to London for the state farm.

With a total of more than 500 head of young steers, the state of Ohio is going into the cattle raising business. In the tract of land purchased for the new penitentiary there are about 500 acres of as fine blue grass pasture as lays out of doors

## Insurance and the Rates

The same question which is bobbing up with such frequency in these days of progressive legislation—the right of law-making power of the several states to fix prices—has recently been decided by the United State Supreme court in the affirmative.

The question in this last instance was presented when the validity of the Kansas statute fixing the limit of insurance rates was attacked.

Three of the members of the Supreme court are not in accord with the opinion announced and assert that the conclusion reached by the majority of the court is an entering wedge for the successful assertion of the legislative right to fix the price of all commodities, including labor.

The majority opinion is justified on the ground of public policy—that the matter of insurance is one of such great public interest that it warrants, on the principle of preserving the superior rights of the public, a decree of legislative jurisdiction before which the constitutional right of the American citizen to conduct his own private business affairs in such manner as he sees fit, must give way.

The claim that the great insurance companies are in collusion to fix rates and keep them up and in pursuance of that collusion the rates of insurance are arbitrarily fixed at a figure in excess of the true amount, has grown steadily all over the country during the last few years.

The decision of the United States courts in a measure recognizes that contention and in upholding the Kansas law, in effect, holds that private enterprise has made of a legitimate business—a business necessity as insurance is now recognized to be—the vehicle to perpetrate a fraud on the public.

The right of the public authorities through the legislative bodies to regulate or to impose a burden or restriction on privately controlled business has always been a very close one and one about which eminent legal authorities differed widely in opinion even after the precise question under consideration had been finally disposed of by the court of last resort.

Private citizens have looked with disfavor, in the majority of instances, upon the encroachment of regulatory laws upon the sacred domain of private business.

As the three dissenting members of the Supreme court point out, each decision upholding the right of the law-making power to regulate privately conducted business opens the door, behind which private rights are housed, just a little bit wider and each decision must, of necessity, take away one more private right, justifying the taking on the ground that public policy and public welfare demands its surrender.

It has not been so very many years ago since insurance was regarded as a gambling contract and by some courts held invalid for that reason.

Now we have the courts not only decreeing the validity of such contracts, but declaring that insurance has become a public necessity of such magnitude in the business world, as to justify the intervention of the law-making power to compel privately conducted companies to furnish the public insurance protection at a rate which affords no more than a reasonable profit over and above the reserve funds needed to protect the insured.

## Poetry For Today

HELLO, MAY!

Hello, May!  
Sister April's just departed;  
Left just as you came.  
Didn't leave us broken-hearted—  
She's a fickle dame!  
Yes'm! Played at being you!  
Played at being June!  
Played at old November, too!—  
And always out of tune!  
Made believe! The deuce is in it!  
Sometimes she was mighty trying.  
Never was herself a minute—  
Save when she was crying.  
Gee, but here's happy day!  
Bless your heart, I'm glad to see you!  
Take a chair, my dear! How be you!  
Hello, May!

Hello, May!  
Fashion follows where you lead it—  
Gowned in green and white,  
Touch of color where you need it—  
Dream of soft delight!  
Yes'm You deserve my praise!  
When all's said and done  
I regret your happy days  
Are only thirty-one!  
We could wish your visit longer!  
Not more frequent!—No, miss!  
Moving Days has somewhat stronger  
Arguments to show, miss!  
Gee, we're beating Moving Day!  
Just the same (through barring showers)  
You're as welcome as your flowers!  
Hello, May!

## WILSON SELECTS RESERVE BOARD

Awaits Olney's Acceptance of the Chairmanship.

Washington, May 5.—President Wilson has completed his selections for the federal reserve board, and unless some of these decline membership the five nominations will be sent to the senate this week.

Four of the men to whom the president tendered places on the board are: Richard Olney of Boston, former secretary of state, who has been offered the chairmanship; Paul M. Warburg of Kuhn, Loeb & Company, New York; W. P. C. Harding, president of the First National bank of Birmingham, Ala.; Harry A. Wheeler, president of the Union Trust company of Chicago. The fifth member will be from the Pacific coast. Dr. A. C. Miller of San Francisco, an authority on finance, is likely to be selected.

The question of greatest interest in connection with the president's selections relates to Mr. Olney's attitude toward the offer. Strong doubt exists in the minds of many persons at the capital that Mr. Olney will accept.

Mr. Olney was visited in Boston last week by Cole M. House of Texas, who informed him of the president's desire to name him chairman of the board. He consented to take the proffer under consideration, but his final answer has not yet been sent to the White House.

Mr. Olney if he accepts will represent New England on the board. Mr. Warburg will represent the east, Mr. Harding the south, Mr. Wheeler the middle west, and the fifth member will represent the far west.

## FATAL ASSAULT

Cleveland, O., May 5.—Police blame the Dirty Dozen gang for an assault which caused the death in a hospital of Kariakos Osek. Osek was beaten near his home by three men, who knocked him down, then jumped on him, crushing his head and chest. Three men, arrested shortly after the assault, have been rebooked on charges of murder.

## DISEASE DANGERS DOWN IN MEXICO

If the United States army should be forced to enter a drawn out campaign in Mexico the germs of malaria, yellow fever, typhus fever and smallpox will become a greater source of danger to American soldiers than all the leaden bullets and exploding shells which may be fired by opposing forces, says an exchange. This is the opinion of officers of the medical corps of the army and navy and of the United States public health service.

Although physicians and public health authorities of Mexico have given much attention to the study of sanitation, less progress has been made in getting co-operation of the people in enforcement of health laws than in almost any other part of the civilized world.

Many of the Mexican people are indifferent to personal hygiene. The natives submit to attacks of contagious diseases as a matter of course, and many have become immune from further attacks after they have suffered from yellow fever, smallpox or other diseases, some of which always are prevalent in the chaotic southern republic.

Surgeon General William C. Gorgas of the army and William C. Braisted of the navy, and Rupert Blue of the United States public health service believe the progress made by the United States in study and prevention of contagious diseases places this government in a better position to solve the health problems of its army and navy than has been enjoyed by any other country.

Every precaution will be taken by the men of the medical corps of the army and navy to protect the health of the men fighting under the Stars and Stripes in Mexico.

Until the American fighting men become acclimated, however, they will have to be careful in keeping away from sources of contagion, and in giving as much attention to bodily cleanliness and other details of personal hygiene as service in the field and on ships will permit.

Scores of skilled surgeons and physicians in the army and navy medical corps will work every day on the campaign to keep the men in good health and the laws also emphasize.

## Efforts to Subordinate Our Courts to Hasty Vote of Electorate Radical and Dangerous

Photo by American Press Association.

By Former President WILLIAM H. TAFT

WE ARE AT A CRISIS WITH RESPECT TO THE FORM OF OUR POPULAR GOVERNMENT. WE FIND A FORMIDABLE MOVEMENT THROUGHOUT THE COUNTRY TOWARD A DESTRUCTION OF ITS REPRESENTATIVE CHARACTER AND THE REVERSION TO AN OLD TYPE THAT IN THE HISTORY OF THE WORLD HAS PROVED A FAILURE, CALLED PURE DEMOCRACY. BUT MORE RADICAL AND DANGEROUS THAN THIS IS THE EFFORT BEING MADE TO SUBORDINATE OUR COURTS IN THEIR ADMINISTRATION OF JUSTICE TO RULES OF DECISION AND STANDARDS OF EQUITY AND JUSTICE THAT ARE TO BE DETERMINED ARBITRARILY BY THE HASTY VOTE OF AN ELECTORATE.

There is a proposal to BRING THE COURTS UNDER THE DOMINATION OF A POLITICAL SOVEREIGN. The courts were subjected to similar dominations in the times of the Stuarts and Tudors, and that was one of the causes leading to the rebellion of 1630 and the revolution of 1688.

# REGULAR MONTHLY SESSION OF CITY COUNCIL IS HELD

Many Ordinances Come Up For Action, Including Appropriation and Annexation Ordinances — Police Gong Also Discussed—Improvement of Oakland Avenue Tabled—Other Business.

All members of council were present at the regular monthly meeting Monday night. Very few visitors were present.

After the minutes had been read and approved, Sheets, speaking for the Service committee, reported on the application for a street light on Lakeview avenue, and stated that there was no question but what there was no question about the light being needed, but owing to the present financial condition, would recommend that it be carried over for the present. The report was accepted.

The committee appointed to investigate the paving on Circle avenue, asked for more time, and received it. More time was granted the committee which was appointed to investigate the N. North street paving. A report from the Ways and Means committee stated that bids on the \$2750 street improvement bonds had been opened, and the Commercial bank bid par and accrued interest to date of delivery, and \$12.50 premium. The R. L. Dowling company's bid was \$2.50 higher than that of the Commercial bank, and the bonds were awarded to the Dowling company.

Sheets moved that the Civil Service salary ordinance, vetoed by Mayor Coffey, be passed over the Mayor's veto. When the question was put to a vote, Howell, Sheets, Rowe and Whelpley voted against it, and the ordinance was killed.

One councilman stated that no salaries could be fixed until there was money appropriated to pay the salary. The solicitor stated that the money had been appropriated at the time the salary ordinance was passed. This was not recalled by some of the councilmen.

The East End sewer matter was taken up, and was discussed for a

short time and laid on the table until the next meeting. There was some misunderstanding as to the last proceedings in the matter.

An ordinance to appropriate the right of way across the B. & O. railroad, for the opening of Pearl and Grace streets, was placed upon its first reading. Veail then moved for a suspension of the rules and placing the ordinance upon its various readings. Rowe thought Grace street should be improved before opened. Solicitor Gregg explained that the action was necessary for the city to obtain what it desired in the opening of the two streets. The ordinance was then read and passed.

Next was an ordinance to annex 3.09 acres of land south of Washington avenue, east of Elm street. This was placed in the hands of the Annexation committee.

An ordinance was then submitted to appropriate certain property for the opening of Oak street, and obtaining a permanent crossing over the D. T. & I. railroad.

Veail explained that the land had been given to Mrs. Tracey, and that all that was desired was to obtain a permanent crossing over the railroad, as the railroad had given notice that no permanent crossing would be laid until it was decided who owned the street.

This matter has been pending for several years.

M. Tracey stated that the land did not now belong to the city, but to the Traceys, the idea of condemning it was to get the street into the hands of the city. Howell asked who owned the title. Solicitor Gregg stated that the title belonged to the Misses Gardner, subject to an easement of the Traceys.

Veail moved that the rules be suspended and the ordinance placed upon its various readings. Sheets thought a committee should be appointed to confer with the Misses Gardner. Veail stated that had been tried before, and no satisfaction had been secured. Veail then withdrew his motion and moved to place the problem in the hands of the Service committee. This was done, M. Tracey voting no.

The ordinance to improve Oakland avenue from Clinton to Leesburg avenue was carried over until the next meeting, when Attorney Cary Baughn stated that he represented four-fifths of the property owners, and that they did not want the improvement. He asked that the ordinance be carried over until the next meeting.

Mayor Coffey's report for the month of April was read and accepted. The report showed a total collection of fines and license amounting to \$64.

Auditor McFadden's report was read and accepted. The report shows that on April 30 the balances in the various funds was: General, \$891.44; Safety, \$1,292.07; Health, \$222.92; and Service, \$648.55.

President Melvin stated that he had been asked to present to council the application of the Slagle Lumber company to erect a bridge over the sidewalk, in order to handle their lumber to better advantage without danger to the public. The application was referred to a committee.

A letter from the Ohio Highway Advertising Company, asking for permission to furnish free refuse collectors, bearing advertisements on the sides, was read, and referred to the Health committee. This application has been considered for months, but has been referred to committees, the city having the receptacles without disfigurement at the present time.

A committee was appointed to in-

vestigate the opening of an alley south of and paralleling Broadway.

Veail brought before council the matter of installing a police gong at police headquarters, at a cost of approximately \$15. The Safety Director was authorized to investigate and secure prices on a suitable gong. The intention of the gong is to notify the police when a call comes into either telephone exchange, particularly at night. By pressing a button the telephone operator rings the gong, summoning the police from their beats.

Adjournment was then taken.

## MOTHERS ARE AWARDED PENSIONS

Judge Allen has just awarded nine pensions to as many needy widows, the amounts ranging from \$2 to \$15 per month.

Those who were awarded pensions are: Mrs. Dora Pierce, Mrs. Melissa N. Creamer, Mrs. Olga Whitmer, Mrs. C. V. Bogard, Mrs. Christina Cable, Mrs. Etta Houseman, Mrs. Mae Wells, Mrs. Olive Myers, Mrs. Ann Johnson.

Two or three applicants were refused pensions. The amount of the pensions varied according to the age of the applicant, the number of children, condition of applicant's health, and general circumstances surrounding the applicant.

## BUSINESS CHANGES ARE NOW UNDER WAY

Three business changes of importance are being made at the present time. The Con Ducey Plumbing establishment has moved across the street into the room recently vacated by Al Melvin's store, and a large portion of the business room just vacated by Mr. Ducey, in the Karney block, will be utilized by Mr. Frank Bending in extending his billiard parlors.

After some changes are made in the room vacated by Mr. Ducey, Mr. Carl Summers will move his music store from the Murray room to the front portion of the business room formerly occupied by Mr. Ducey.

## TEACHERS EMPLOYED FOR COMING TERM

The Board of Education of Jefferson township has employed the following teachers for the 1914-15 term: Sub-district No. 1—Corrine Conner; No. 2, Maude Cox; No. 3, Harry Blue; No. 4, not employed; No. 5, Stella Wentz; No. 6, Bernice Allen; No. 7, Jessie Spellman; No. 8, Florence Grear; No. 9, Faith Straley; No. 10, Albert Vannorsdall and primary, Louise Fultz; No. 12, Flossie Straley; No. 13, Phemia Swiss; No. 14, Bess Blue.

The two or three places not supplied will probably be filled in the near future.

## THINKS CHESTNUT MIGHT KILL HIM

John Tatman appeared before Mayor Coffey Tuesday morning and filed application for a peace warrant against George Chestnut, whom he says he is afraid will kill him or do him bodily harm.

Tatman complained of his treatment at the hands of Chestnut, and after hearing his story, the affidavit was filed and a warrant issued for the apprehension of Chestnut.

## TUBE INSERTED CHILD RECOVERS

Mary Elizabeth, the five-year-old daughter of Dr. and Mrs. Wm. Francis, of South Charleston, who was brought to this city Monday morning to have a silver tube inserted in the throat, was able to return to her home in South Charleston, Tuesday morning, the tube being inserted about 7:30 Monday night after an anaesthetic had been administered.

Some delay in inserting the tube, which had been jerked out during play, was occasioned by the child's mother not desiring the work done until later in the day, but Dr. R. M. Hughey, who had charge of the case, prepared the tube so that it was slipped into place almost instantly and without irritating the incision. As soon as the child regained consciousness she asked if it was a new tube that had been inserted. "It seems like a new one" she explained when informed that it was the one she had been used to.

Owing to the peculiar nature of the case, it has elicited a great deal of interest.

## In Social Circles

The girls of the M. H. G. and the Philathea Sunday School classes, are indebted to their teachers, Mrs. Austin F. Hopkins and Miss Emma Jackson for many enjoyable affairs, but none of more distinctive pleasure, nor on a more elaborate scale than the supper given by Mrs. Hopkins and Miss Jackson to their classes Monday night at 6:30 in the basement dining room of the Presbyterian church.

Fifty girls responded to the invitations and Rev. and Mrs. Wm. B. Gage, S. S. Supt. M. E. Hitchcock and wife, and Mr. Hopkins also included among the guests.

The long tables were arranged in the form of the letter "H", and presented an exceedingly pretty and spring-like appearance with an immense bowl of purple lilacs on the center table and vases of red buds adorning the others. A crimson note of color was effectively introduced in the delicious supper served.

At the close of the supper, Supt. Hitchcock made an able little address, and two interesting reports of conventions were given Mrs. John McConaughy, as delegate from the Philathea class to the Presbyterian meeting at Wilmington, gave that report, and Miss Inez Rodgers, delegate from the M. H. G. class to the Foreign Missionary Conference in Pittsburgh, Pa., gave the report of that meeting.

The girls of these two classes are jointly educating a girl in the Laura Sunderland School of Concord, N. C., and were much interested in letters read by Miss Jackson from both their protegee and a general letter from the Principal of the school.

Mrs. Gage and Mrs. Hitchcock gave in an informal way, their impressions of the Presbyterian meeting, and the evening closed with a social time.

Mrs. Robert Howat entertained the closing meeting of the Monday Bridge club yesterday.

Mr. and Mrs. Clayte Parrett and son, Mr. Gale Parrett, entertained Sunday and Monday with two fish dinners that were among the most enjoyable affairs of the neighborhood this season.

Having been very successful in a big catch of fish, weighing altogether 25 lbs., on two successive evenings, the Parretts generously included some of their friends, who thoroughly appreciated the unusual treat of the fish dinners.

The guests included Mr. and Mrs. Frank L. Parrett, Mr. and Mrs. Tom Vesey, Mr. T. C. Kirk and family, Mr. Roy Heglar and family, Mr. and Mrs. Val McCoy, Miss Mary Robinson, Mr. Howard Heglar.

## SOFT PEDAL IS PLACED ON SHOW

After a visit to the grounds of the Wieder Amusement Company, which pitched its tents in this city first of the week, Chief of Police D. L. Moore ordered the "soft pedal" but on one of the shows which he regarded as not being as moral as it should be.

The order was complied with, and the authorities announce that no immoral shows will be permitted to exhibit in the city.

# FIRST CLUSTER LIGHTS TO BE INSTALLED ON COURT ST.

Some time during the summer, unless present plans are abandoned, Craig Brothers will install the first cluster street lights in the city.

The cluster lights form part of the plans for remodeling and beautifying the Craig Brothers store during the summer, and two modern cluster lights are planned to be placed upon the sidewalk close to the curb in front of the store.

The installation of the lights may eventually mean the adoption of the cluster lights for lighting the business district of the city.

Friday of this week bids will be opened for remodeling the entire front of the Craig Brothers store,

and when the work is completed, it is expected that the store will assume a much more metropolitan air, as the huge stairway is to be removed, and a 3 1/2 foot stairway built on the east side of the store, while the front is to be altered and modernized. The walls will be removed to the second floor, and steel supports will be installed, and a beautiful glass front added.

Actual work on the building will begin within the next few weeks, and the big store will be completely changed in front, and more than 2,000 square feet of floor space will be added on the second floor, while the main entrance will be located where the present stairway is.

## PERSONAL PARAGRAPHS

Miss Kate Gebhart and Miss Anna Leliet, of Circleville, were the guests of Mrs. James Wilt the first of the week.

## MONEY IS POISON TO THIS BANKER

Mr. S. M. Taggart, cashier of the Citizens' Bank of Jeffersonville, was in the city Tuesday to obtain treatment for a badly infected eye, caused by handling money, which evidently carried germs of a very poisonous nature.

Mr. Taggart was handling paper money, and unthinkingly rubbed his left eye. Almost instantly the eye commenced to pain him, and in a few moments it became inflamed. He used home remedies until the eye became so painful and irritated that he deemed it necessary to come to this city for attention. Mr. Taggart states that this is not the first time he has been poisoned by handling infected money.

## TAKEN TO DAYTON FOR NON-SUPPORT

# CARRANZA DROPPED FROM THE CONFAB

## Mediators Withdraw Their Invitation to Rebel Chief.

## NEW TURN TO MEXICAN FUSS

Action of Carranza in Refusing to Enter Into an Armistice With Huerta Displeases the Peace Envoys, Who Feel They Are Being Used as Catspaw to Accomplish Huerta's Downfall.

Washington, May 5.—A new turn came in the Mexican situation when it was announced in Washington that the mediators have withdrawn their invitation to Carranza to participate in the mediation program.

This action was taken because of Carranza's refusal to enter into an armistice with Huerta pending the effort to bring about a peaceful settlement of Mexico's internal differences.

What effect such a development will have upon the progress of events in Mexico can only be conjectured here. The United States stipulated in its original acceptance of the mediation invitation that all factions in Mexico should be made parties to the program. The report of the withdrawal of the invitation to Carranza came on top of many disquieting rumors to the effect that the mediators were displeased with the way Carranza was acting and that they feared they were being used as a catspaw to accomplish the downfall of Huerta.

In a telegram to General Carranza the mediators announced that, in view of his refusal to agree to an armistice with General Huerta, they withdrew their invitation to him to send a personal representative to participate in the mediation negotiations.

The mediators told the Constitutionalist leader that as long as he maintains his present attitude they must decline to treat with him.

General Carranza had inquired in a note to the envoys what subjects a representative might be required to discuss, pointing out that if the general problem of pacifying Mexico were to be approached he could not authorize anyone to participate in the negotiations. He reiterated that he would consent to mediation only on the incidents which had brought about a controversy "between the United States and Mexico," holding that he is the constitutionally chosen leader, to whom complaint about the

insult at Tampico and other offenses originally should have been made.

In their telegram the mediators, quoted Carranza's last note to them. They can not separate the incidents at Tampico and elsewhere which brought about friction between Mexico and the United States from the general subject of pacifying Mexico.

## HUERTA WILL NEVER RESIGN

Vera Cruz, May 5.—While American refugees may differ as to the situation at Mexico City, all are agreed that there is a steadily swelling undercurrent of feeling against General Huerta. The split between General Blanquet is reported to be wider than at any time, the activity of the Catholic party, the growing feeling of the business element of the capital that there can never be peace so long as Huerta holds sway, all seem to them to be signs of an impending change.

Some of the American refugees profess to have the word direct from confidants of Huerta that while he will never resign, he does not think a coup such as unseated and killed President Madero is impossible. He has said grimly that he will be ready to meet it; he may lose his life, but he will not quit before it.

So far as anti-American sentiment is concerned they say that it is very quiet now, although it would not take any very considerable incident to revive it again. The bombardment of Tampico or Manzanillo, or the occupation of another port, would render the situation of Americans in the interior more perilous.

## EXCHANGE SHOTS ON BATTLE EVE

Juarez, Mexico, May 5.—General Villa's campaign against the combined federal forces of Generals Velasco, Maas and De Moura in Saltillo opened with an exchange of rifle fire by the outposts. The preliminary skirmish marked the arrival of the Constitutionalist vanguard before the city. The movement of Villa's main army is well under way and rebel officials predicted that before the end of the present week the cannon and machine guns, supported by the rifle fire of an army of 18,000, would be pounding the federal entrenchments.

## NEW DECORATION

Mexico City, May 5.—The federal government created a new military decoration, to be known as that of the "Second North American Invasion." The defenders of Vera Cruz, when the American bluejackets and marines landed there, are to be rewarded with this decoration, it is said.

Chillicothe, O., May 5.—Mexican war veterans and members of their families will gather here June 9 and 10 for the reunion of state and national associations. At this reunion a committee will be appointed to place the associations' records in the national capitol for safe keeping. Captain John A. Fisher of this city is president of the national association and vice president of the state association. John Conwell of Cadiz is president of the state association.

## OHIOAN AMONG COLORADO DEAD

Port Clinton, O., May 5.—Word has been received by George and Albert Kessler at Oak Harbor announcing the death of their brother, Edward Kessler, who was one of the victims of the Colorado riots. Kessler was a carpenter and took no part in the strike, but was killed during one of the riots.

## KERMIT TO BE MARRIED IN JUNE

Madrid, May 5.—Miss Belle Willard, daughter of the American ambassador to Spain, Joseph E. Willard, has received a telegram from Kermit Roosevelt, to whom she is engaged to be married, saying he will arrive in Lisbon May 20. Kermit will be married in June.

## PHYSICIANS MEET

Columbus, O., May 5.—Physicians from all parts of Ohio are attending the sixty-ninth annual meeting of the Ohio State Medical association, which opened at Memorial hall today. More than 1,000 delegates and visitors are present. Sessions will be held morning and afternoon until noon Thursday. All of the addresses will contain something of popular interest and this year, for the first time, all of the sessions will be open to the public.

## DAYTON CLASH

Dayton, O., May 5.—The first clash between the striking painters and the employers took place when police protection was given a squad of painters working on a downtown building and who had refused to join the strikers. Thirty-five master painters signed an agreement to stand pat on refusal to accept the demands of the strikers for a 45-cent schedule per hour and an eight-hour working day.

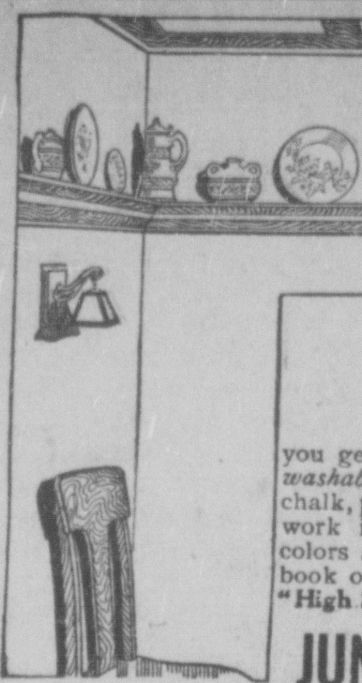

## TWO KILLED

New York, May 5.—Christopher Dunn, a cocaine sniffer; Richard J. De Silva and Walter W. Leipuh, dishonorably discharged from the United States navy after serving 18 months for robbery on a battleship, met and resolved to raise a little money by burglary. The outcome was that Policeman Michael J. Kiley and Athanasios Basibosis, a restaurant keeper, are dead, shot to death, and the three young men are in jail charged with murder in the first degree. The Greek was shot when the three attempted to hold up his restaurant and the policeman was killed by Dunn, whom he stopped as the man was fleeing through the streets. Dunn made a complete confession to Assistant District Attorney Conway.

## VIOLENCE FEARED IN COAL FIELDS

Charleston, W. Va., May 5.—D's orders rivaling those of the bloody strike in Paint and Cabin Creek districts are expected during the present strike of miners in the Kanawha coal district. The miners are remaining out over the protest of union officials and are now awaiting an official interpretation of a clause of the present wage contract which mine officials declare the miners violated when they refused to return to work last Friday.

While there has been thus far no attempt at violence, it is reported from Paint Creek that the miners there have made plans to march to the nonunion mines at Kefertown and Kingston and demand that the unorganized mines close down. There are 12,000 miners out.

## Old-Line Democrat Is Elected Speaker of House.

## IMPEACHMENT PLAN DOOMED

Governor's Friends Control Both Branches of the Colorado General Assembly—Compulsory Arbitration Measure Encounters Serious Opposition—Nine Hundred Additional Troops Arrive in Strike Zone.

Denver, Colo., May 5.—Foundation has been laid by the majority to resist all efforts at impeachment as well as all other questions not in Governor Ammons' call for the special session. In both houses it was found that the governor has sufficient strength to defeat any impeachment resolution. The governor won his first point when John H. Slattery, an old-line Democrat, was elected speaker of the house.

A bill already prepared providing for compulsory arbitration of all labor questions probably will fail with the impeachment resolution. Only a compromise can save this measure. It is pretty clearly established that the forces which are supporting Ammons are opposed to the arbitration proposal.

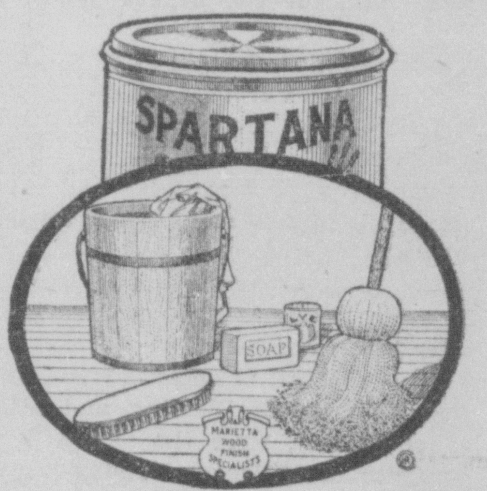

## CAUGHT JOHN FOR INCREASE

Cleveland, O., May 5.—While John D. Rockefeller, the Standard Oil king, has been able so far to evade the district tax assessors at Cleveland, his agencies were not so successful in Hancock county, where a \$10,000,000 increase in the valuation of the property of the Ohio Oil company, a subsidiary of the Standard, was tacked on by District Assessor Theodore Bayless.

## MILLIONAIRE FACES PRISON

Chicago, May 5.—John F. Jelke, millionaire manufacturer of oleomargarine, was sentenced to two years in the government prison at Leavenworth, Kan., and fined \$10,000 by Federal Judge Geiger in the United States district court. Each of seven other defendants convicted with Jelke of conspiring to defraud the government of the 10-cent tax on colored oleomargarine was fined \$2,500. The cases will be appealed.

## GIRL WILL TRY AN ATLANTIC FLIGHT

Berlin.—Melli Beese, Germany's famous woman aviator, announces her intention of trying for the great honor of being the first air pilot to fly across the Atlantic, for which purpose she is constructing her own hydroaeroplane.

Melli Beese is widely known not only as a daring flier and as Germany's only woman aeroplane pilot, but as the only woman in the world who conducts a flying school, of which she herself is the principal, and who makes a business of designing and manufacturing flying machines. A small, lithe figure, Frau Beese is a beautiful woman of about thirty. She won a pilot's license more than four years ago, the first to be granted to a woman in Germany. She is not discouraged by the fact that she has broken her legs in five places, sustained fractures of several ribs and has broken her nose three times in tumbles out of the air. These accidents, she declares, were the fault of her teachers and did not happen when she herself was at the wheel.

When seen at the Johannisthal flying field, where more than 300 machines are stationed, Frau Beese said: "Yes, I am going to be among those who will be the first to try to fly across the Atlantic. If I cannot be the first to pilot a flying machine to America at least I want to be the first woman to achieve that honor. I am constructing a new type of hydroaeroplane, which will be

# Announcing the New PERMIT Process

## That Makes PERMIT the Only Cigar of Its Kind

The manufacturers of PERMIT recently perfected the wonderful new PERMIT Process—the greatest scientific achievement of modern cigar making.

Under this Process the choice tobaccos used in PERMIT are skillfully treated by improved methods that bring out more of the mellowness, mildness and flavor of the leaf—get greater richness and smoothness into the blend—than is possible under any of the old methods used throughout the cigar business today.

As a result, the quality

of this famously good, clean, hand-made cigar is now distinctly remarkable—PERMIT today is proving to smokers a revelation of enjoyment.

No other cigar can duplicate the new PERMIT quality, because the PERMIT Process is a secret, known only to the PERMIT manufacturers.

We ask every smoker in this city to try PERMIT. The more critical and exacting your taste, the more PERMIT quality will surprise and delight you. Smoke one today.

## WHAT OHIO DID BACK IN 1846

Ohio was not backward in her contributions of men to the American army when this country invaded Mexico during the Polk administration, says an exchange. The Buckeye state had 5,536 volunteers in the armies commanded by Generals Taylor and Scott. The state's losses during the war in killed, died of wounds and disease was 603 or 11 per cent of the enlistment.

According to the records of the war department at Washington, the total enlistment in the war against Santa Anne was 191,282 men including 27,536 regulars. The American losses were 1,557 killed and 3,420 wounded. According to Col. W. L. Curry, who is now working on a war history of Ohio, this state sent six full regiments and 15 independent companies to Mexico during the war of 1846-48.

Company B of the Fourth O. V. I. was recruited in Columbus. Under

the command of Captain M. G. Lilley, this company marched from here on May 29, 1847. They landed in San Juan De Ulna, just a short distance from Vera Cruz on September 16. They proceeded from here, under the command of General Joseph Lane to join General Scott who was marching on to Mexico City.

They fought in Corro Gordo and were present at the battle of Huamantla when Colonel Lo Voga, brother of one of the leading Mexican generals and Major Iturbide, son of a former Mexican emperor, were taken prisoners.

According to Col. Curry, there are less than 50 Mexican war veterans still alive in Ohio. He says he believes that not one of the company recruited in this city is still alive.

The tabulated list of entries in the next Indianapolis five-hundred-mile race, shown above, is productive of some interesting information. Among other details it is noted that seven of the cars are of the pure short stroke type, measuring 5.1 x 5.5, while five attain the long stroke limit, 4.2 x 8, with the others betwixt and between. The battle between short and long stroke on the day of the race will be most absorbing.

## MAY GRAND JURY RETURNS SIX TRUE BILLS LATE TODAY

The May Grand Jury filed its report at 3:25 Tuesday afternoon, returning six true bills, and ignoring four cases of the ten examined.

Over 46 witnesses were examined during the two days' session, and the jail was visited and found in good condition.

The indictments returned are as follows:

Bertha Hutchinson, manslaughter. She is accused of murdering her infant daughter on January 8th.

Lee Huffman, arson. Huffman is the young man of near Bookwalter who is accused of setting fire to the John Swaney home near Shady Grove

on the night of December 24th.

Kirby McCarty, shooting to kill, with count for shooting to wound. He is the youth accused of the shooting of Roscoe Vivens one night some seven weeks ago.

Kirby McCarty, carrying concealed weapons.

John Curtis and Leonard Wilson, for burglary and larceny. These are the two colored men arrested for robbing the freight depot at Fairview.

Carry Reeves, disturbing a religious meeting.

Cases ignored are: Wilbur Smith, cutting to wound; Wilbur Burchell and James Wilson, assault.

Cincinnati, Ohio, May 5.—Judge Sessions, of the U. S. Circuit court of appeals, announced today that he had granted an appeal in the Federal Baseball case relative to player Killifer, which was decided against it at Grand Rapids several weeks ago.

## MINERS GO BACK

By Associated Press.

Indianapolis, Ind., May 5.—Coal miners of the Kanawha district of West Virginia, were ordered to return to their work today, and continue operations of the mines until either a new contract is signed, or negotiations with the operators were severed.

This action was taken by the International Executive Board of the United Mine Workers of America in session here.

The board decided today that a committee be appointed to draft a policy which the board should pursue in the Colorado strike.

A committee of Ohio miners was to be heard this afternoon.

## DODGE SUFFRAGE AND PROHIBITION

By Associated Press.

Washington, D. C., May 5.—Joint resolutions proposing amendments to the Federal constitution giving the right of suffrage to women, and national prohibition were ordered reported without recommendation to the House. This leaves both proposals to the House for decision without suggestion from the committee.

## MORE CONCRETE ROADS FOR ROSS

The contract for two miles of concrete roadway in Ross county has been let. One job, in Green township, was let at a cost of \$12,457, while the second job costs \$14,241.60. S. M. Perry of Frankfort was awarded the last mentioned contract.

It is figured that by constructing concrete instead of brick, a saving of \$5,700 was made, and that amount is to be used for the improvement of a half mile of road near Chillicothe.

"Night came, releasing them from labor—

When a hand from out of darkness Touched them and they slept."

Mrs. Jessie Mildred (Corbitt) Rodgers, the eldest daughter of Samuel Morgan and Mary Elizabeth Corbitt was born at the old homestead near Jeffersonville, O., June 1st, 1868, departed this life April 30th, 1914, at the home of her mother in Jeffersonville, aged 45 years, 10 months, 29 days. On July 12th, 1891 she was united in marriage to P. L. Rodgers of Washington C. H., O., and made that their home for many years.

She was a beautiful and noble woman and many have felt the benediction of her sweet Christian spirit.

She had been ill for four weeks, of ulceration of the stomach. Two weeks before her death she was taken to the home of her mother, that she might have the loving care of mother and sisters. There remain to mourn her loss, a husband, mother and two sisters, Mrs. Laura V. Bates and Miss Roxa L. Corbitt, the father and two sisters having preceded her to the eternal home.

"At even time it shall be light."

The funeral services were conducted from the home on Main street, Jeffersonville at 2 p. m. Saturday, by the Rev. Daniel Bryant, of Zion City, Ill. Interment at Fairview cemetery.

For Ohio—Partly cloudy tonight and Wednesday. Cooler Wednesday and in north portion tonight.

## WE ASK FOR COMPARISONS

## NEW OFFICERS ARE ELECTED

At the regular meeting of Company M, Monday night two new officers were chosen to fill vacancies caused by resignations several weeks ago.

Ralph Hess was chosen for first Lieutenant, and Henton Cook for second Lieutenant.

Hess was formerly a member of the Guard, but not in this state. Cook is one of the local company's most efficient men.

## IS TAKEN BACK TO THE O. H. E.

Grover Pyles, a young man who was taken to the Ohio Home for Epileptics at Gallipolis, some months ago, took French leave of that institution a few days ago, and was Tuesday morning apprehended by Deputy Sheriff Nelson and Guard Mossman, of the O. H. E. and was returned to the institution in care of Guard Mossman.

## JUSTICE OFFICIATES

Cleveland Long, a young farmer of near Cooks Station, and Miss Lucy Estle, of this city, were united in marriage at the Probate Judge's office, Monday afternoon, Justice Craig officiating.

The newly married couple will make their home near Cooks.

## FAYETTE CREDIT BUREAU GROWING

The Fayette Credit Bureau, organ-

ized a few months ago, along original lines carefully planned by Mr. M. E. Hitchcock, is proving itself a valuable institution to Washington business men, and is rapidly eliminating old accounts, and the incurring of bad credits.

At the present time there are 95 business and professional men in this city who are members of the Bureau, and who are enthused over the good results obtained.

It is quite complimentary to Mr. Hitchcock to know that a number of surrounding cities are adopting a plan as near similar to the one he has established, as it is possible without taking his plan outright. Several persons from surrounding cities, who have learned of the success of the Fayette Credit Bureau, have come here to consult with Mr. Hitchcock, with a view to adopting his methods.

Next month he will organize the various towns of the county, and will add several dozen more new members to the Bureau. At the present time he has the rating of virtually every one in the county who does a credit business.

## BIG GAINS ARE SHOWN IN GREENE

To date the increase in the tax duplicate in Greene county, has been \$1,374,552 on 3812 personal tax returns.

Reports from Xenia show a gain of \$404,134 in that city, \$226,783 in the villages, and \$749,635 in the townships.

In Fayette county the duplicate continues to grow, and District Assessor Dunn expects to have complete returns within a week or ten days.
